ARTICLE I RECOGNITION

The Company recognizes the Union as the exclusive collective bargaining representative for those production and maintenance employees in the bargaining units as determined by the National Labor Relations Board in Case Numbers 18-RC-44, 18-RC-47, 18-RC-373 (Des Moines); 18-RC-113, 38-RC-1374 (Dubuque); R-4164 (Harvester - East Moline); R-3839, R-5893 (Ottumwa); 13-RC-3560, 38-RC-441, 13-RC-662, 13-RC-1697 (Seeding Group/Cylinder Division, Excluding Pattern Makers, Toolroom, and Experimental Department employees); and R-4877 (as clarified by written agreement dated 22 May 1997 concerning the foundry bargaining unit (Waterloo Works) and Waterloo Foundry; and as determined by written agreement dated 26 November 1974 (Davenport), 10 January 1975 (Engine Works), 18 April 1975 (North American Parts Distribution Center, Milan facility), successor to the bargaining unit as defined in Case Numbers R-4165, 13-R-2456, 21 September 1977 (Waterloo Works – Tractor and Cab Assembly Operations) and John Deere Coffeyville Works (subject to transition agreement).

ARTICLE II GENERAL CONDITIONS

Section 1. Payday

Payroll checks will be deposited directly to the employee's bank or credit union account on Friday of each week for services rendered during the previous workweek.

Section 2. Physical Examinations

- A. When a physical examination or laboratory test has been made by physicians acting for the Company, a report thereof will be given to the personal physician of the employee involved, upon the written request of the employee.

- B. An employee returning to work following a period of absence, e.g., layoff, leave of absence, illness, or accident, who loses time from work as a result of the Company requiring that they take a physical examination will be paid for such time lost from work during their regular shift hours at the wage rate of the assignment to which they are assigned upon return to work.

- C. When scheduling employees for treatment and physical examinations at the John Deere medical facilities, it is the policy to endeavor to schedule employees for medical treatment or medical examinations in accordance with the following schedule. First shift employees are normally scheduled during their working hours. Second shift employees are normally scheduled at the beginning of their shift. Third shift employees are normally scheduled soon after the end of their shift; i.e., generally between 7:00 a.m. and 8:00 a.m.

Schedules may have to be altered to accommodate certain medical priorities.

Section 3. Company Salaried Employees

Company salaried employees shall not perform work covered by the terms of this Agreement, except in the following types of situations:

- A. In the instruction or training of employees.
- B. In the performance of necessary supervisory work when production difficulties are encountered on the job, or in starting new jobs.

Section 4. Non-Traditional Work Assignments

Employees covered by this Agreement will be permitted to be assigned to certain functions which they traditionally have not performed or have not exclusively performed. Examples of these functions are:

- A. Programming and maintenance of computers and robots;
- B. Identifying training needs, developing training materials and conducting training;
- C. Leading or participating in project teams where subjects studied may cover a wide range of functional areas;
- D. Special assignments given to employees to accommodate temporary medical restrictions;
- E. Evaluating, testing and/or analyzing experimental, prove design and/or production parts, assemblies, prime products, etc., in order to develop or prove engineering theory and design; and
- F. Special assignments and non-traditional work given to employees assigned to the resource pool in order to accommodate provisions of the Memorandum of Agreement on Employment Security.

ARTICLE II, Section 4.

However, these functions are not exclusively and will not exclusively be the work of employees covered by this Agreement.

Section 5. Subcontracting

- A. It is not the Company's intent to have subcontractors working in the plant on work normally performed by bargaining unit people unless the affected bargaining unit people are working a maximum number of hours (i.e., at least 48). In such cases, the Union will be notified prior to the work being performed.

- B. In other situations, the Company shall make decisions as to whether work shall be performed by Company forces in any Company plant, or by others, consistent with an intention to maintain as far as practicable a stable workforce. The Company shall make decisions of such nature with such intention, taking into consideration such factors as the scope of the project or production requirements, relative cost, possession, and availability of Company equipment and of employees qualified to accomplish the production without undue overtime or delay either of the specific production or of any other scheduled activity, desirability of continuity of relations with historic sources of supply, and believed best utilization of all of the Company's plants with a view to the long-term stability and health of the enterprise as a whole.

Section 6. Current Address

As it is necessary for the administration of the terms of this Agreement, it is the obligation of every employee to keep the Personnel Department advised of their current address and telephone number.

ARTICLE III NONDISCRIMINATION

Section 1. Cooperation

It is mutually acknowledged that this Agreement is based on a relationship of respect, understanding, and cooperation. Such respect, understanding, and cooperation between the Company and Union at all levels contemplates a continuation of contacts between the parties on items of mutual interest as they arise.

Section 2. Union Activity

The Company will not interfere with, restrain, or coerce employees because of membership in the Union, lawful activity on behalf of the Union, nor will it condone on the part of its representatives any anti-Union activity against the Union.

Section 3. Nondiscrimination

There shall be no discrimination against any employee in the bargaining unit by either party under this Agreement because such employee is a member of a "protected class," as that term is used in Presidential Executive Orders and in Federal and State Legislation.

Section 4. Equal Opportunity

A joint program to ensure equal opportunity for "protected classes," as that term is used in Presidential Executive Orders and in Federal and State Legislation, is set out in Exhibit "H" of this Agreement.

Section 5. Interference

Neither the Union nor the employees it represents will interfere with, intimidate, or coerce any employee in regard to their right to work, nor shall there be any acts by Union members of a coercive nature on Company property at any time.

Section 6. Solicitation

The Company will not condone solicitation of members for any Union carried on during working hours, but this paragraph shall not be construed to prevent the Union from taking up and discussing grievances with management pursuant to the provisions of the Grievance Procedure as set out in Article XII of this Agreement.

Section 7. Discipline

The Company may take disciplinary action against any individual or groups of individuals violating the provisions of the above Sections.

ARTICLE IV DISCIPLINARY ACTION

Section 1. Cause

The Company shall not exercise its right to discipline by reprimand, suspension, or discharge, any employee except for good and just cause.

Section 2. Notice

Before an employee is required to leave the plant as a result of any incident calling for disciplinary action, their Committeeperson, if in the plant, or otherwise any representative of the Union shall be summoned to an office designated by management for the purpose of being notified that the employee is being sent out of the plant and for the purpose of hearing the employee's statement of their position. It is understood that this meeting does not constitute a hearing and the sole reason for the presence of the Committeeperson at this time is to be notified that the employee is being sent out of the plant and to hear the statement of the employee. The employee will not be required to leave the plant in instances involving garnishment, tardiness and absenteeism. In other instances, except for those involving a violation of Article X or where the safety of the employee, other employees, or Company property may be threatened, the Union may request that the hearing be held without the employee being required to leave the plant. Before the hearing is held, a brief discussion will take place between the Labor Relations Representative and the Committeeperson relative to the scheduling of the hearing, the infraction of the rules involved, and the facts known at that time. Should it be necessary to further investigate the facts presented, the hearing may be delayed.

Section 3. Disciplinary Hearing

- A. Within a reasonable period of time after the employee has been sent out of the plant, a disciplinary hearing shall be conducted by the Manager of Labor Relations, or their representative, at a designated office. At this disciplinary hearing, the employee shall have the right to be present, their Committeeperson shall have the right to represent them, and both parties shall be allowed to bring in witnesses in order to ascertain all the facts and circumstances of the case. The Chairperson may, if they request, participate in the disciplinary hearing.

- B. Should the Company decide to discipline the employee, it shall so notify the employee and the Chairperson, or Committeeperson. In imposing discipline, the Company will not take into account any prior infraction which occurred more than three years previously.

Section 4. Minutes

Written copies of the minutes of the disciplinary hearing, as provided in Section 3 above, including a statement of the Company's disciplinary action, if any, will be furnished by the Company to the Chairperson within five (5) working days from the date of the disciplinary hearing. The time limit on the filing of a grievance as a result of disciplinary action, if any, will begin at the time such minutes are furnished to the Union.

Section 5. Discipline Grievances

If any employee desires to present a grievance because of disciplinary action by the Company, as described in Sections 1, 2 and 3 of this Article, said grievance shall enter the Grievance Procedure in Step 2, except that discharge grievances shall enter the Grievance Procedure at Step 3. If it is finally determined that the employee has been disciplined without good and just cause, such employee shall be restored to their former status at the time such action was taken against them and shall be compensated for the wage loss, if any, which has been incurred.

Section 6. Probationary Employees

It is agreed that this Article shall not apply to probationary employees, except that in cases where discrimination because of Union activity or membership in the Union is alleged by the employee, a grievance may be filed as provided in Section 5 of this Article. The Company agrees that any probationary employee will be given the right to see their departmental steward before they are required to leave the plant because of disciplinary action.

Section 7. Written Reprimand

- A. After the written reprimand has been on file for one (1) year without any intervening disciplinary action, it will be removed from the employee's employment record.
- B. The departmental steward shall witness the issuance of written reprimands in their area.

ARTICLE V UNION BULLETIN BOARDS

Section 1. Use of Bulletin Boards

- A. The Company will assign bulletin boards for the exclusive use of the Union.
- B. The Union agrees that it will limit the use of these bulletin boards to the following Union notices and will supply the Company with copies of such notices:
 - (1) Recreational and social affairs of the Union.
 - (2) Union meetings.
 - (3) Union appointments.
 - (4) Union elections.
 - (5) The results of Union elections.
 - (6) Reports of standing Union committees.
- C. No provision of this Article shall be construed to permit the posting of any political or advertising matter on bulletin boards or elsewhere on Company property.

ARTICLE VI LEAVES OF ABSENCE

Section 1. Personal Business

- A. In special cases, the present practice of the Company of allowing employees to absent themselves from active employment for brief periods to take care of personal business will be continued, when arrangements are made in advance, therefore. In such special cases the employee shall retain and accumulate seniority and shall be returned to the job last held provided the seniority provisions so permit and provided that they return to active employment at the expiration of such leave.

- B. On any absence from active employment of more than three (3) days, and if a leave of absence on the proper form (Exhibit "D") has been approved by management, a copy of such leave shall be furnished to the Union.

Section 2. Union Business

- A. When the Union (Chairperson, President, or Secretary) requests permission for an employee to be absent from active employment for more than three (3) days for Union business, the Company will grant a leave of absence. This permission shall be extended to not more than one (1) employee for each four hundred (400) employees, or major fraction thereof in the bargaining unit, with a minimum of six (6) employees at any one time and shall not exceed a total of more than thirty (30) working days per year times the number of employees entitled to be absent. In such special cases, the employee shall retain and accumulate seniority and shall be returned to the job held provided the seniority provisions so permit and provided that they return to active employment at the expiration of such leave.

ARTICLE VI, Section 2.

- B. Upon request by the Union (Chairperson, President or Secretary), permission to be absent from active employment will be granted to employees selected as delegates to John Deere Intra-Corporation Council or Screening Committee meetings, Agricultural Implement Wage and Hour Council, or as members of Local Union election committees, or as Union negotiators in any contract negotiations with the Company, or to Local Union representatives engaged in preparatory work for Step 3 and arbitration of the Grievance Procedure, or to Executive Board Members of the Local Union to attend meetings away from the plant, or to members of standing committees as defined by UAW International Constitution (not to exceed twenty (20) at any one time). Such time off shall not be charged against the quota of employees or against the time allowed under A above.

- C. In addition, upon such request, the President of the Local Union will be granted a special leave of absence to serve as a full-time representative of the Local Union. During such leave the employee shall retain and accumulate seniority. Such leave of absence shall be for one (1) year and shall be renewed from time to time upon written request from the Union. If they return to the active employment of the Company at or before the end of such leave they shall be assigned to work as set out in D below.

- D. Upon written request by the Union, the Company will grant a special leave of absence to not more than seven (7) member(s) of the bargaining unit who accept a full-time job with the Union for a part or all of a year. During such leave the employee shall retain and accumulate seniority. Such special leave of absence shall be limited to a period of one (1) year. Such leave of absence shall be renewed from time to time upon written request from the Union. If the member returns to the active employment of the Company at or before the end of the special leave of absence, they shall be returned to the department and seniority classification last held prior to the leave of absence. In the event the department and seniority classification last held does not exist, or if their seniority is not sufficient to permit

ARTICLE VI, Section 2.

his remaining in that department and seniority classification, then they shall be subject to the remaining provisions of Article XIV.

- E. Any request to be absent or on leave as provided by this Section should be submitted to the Company as far in advance as is reasonably possible.

Section 3. Educational

- A. A leave of absence for a period not to exceed one (1) year without loss of seniority will be granted to an employee who has one (1) year or more of seniority in order that the employee may attend a recognized college, university, trade, or technical school full time, provided that the course of instruction is related to the employee's employment opportunities with the Company. A request for a leave of absence to attend primary or high school will be regarded as being within the intent of this paragraph and the schooling will be regarded as being related to the employee's employment opportunities with the Company. Before receiving the leave, or an extension thereof, the employee shall submit to the Company satisfactory evidence that the college, university, or school has accepted them as a student and, on the expiration of each semester or other school term, shall submit proof of attendance during such term. Such leaves may be extended for additional periods not to exceed one (1) year each.
- B. An employee may terminate an educational leave of absence by written notice to the Company. The employee will be returned to active employment within ten (10) working days after receipt by the Company of the written notice to terminate the educational leave of absence.

Section 4. Elective Office

- A. For the purpose of enabling employees to participate in the affairs of government, the Company shall grant, upon written notice from the employee, leaves of absence to employees who are elected or appointed to city, county, state, and national governmental positions for the first term or who are appointed to serve unexpired terms of such elective or appointive positions. Such leaves of absence will be granted by the Company, upon written request, for successive terms within the period of this contract.

- B. Upon written request, an employee seeking candidacy or government office, the Company will grant a leave of absence of sixty (60) days prior to an election date for the purpose of campaigning on their own behalf.

Section 5. Military and Naval Service

- A. None of the provisions of this Agreement shall be permitted to conflict with any obligations of the Company under any Selective Service Act, and amendments thereto, for any of its employees who have been inducted into any of the services covered by such acts and amendments thereto.

- B. An employee accepted for membership in the Peace Corps shall be granted the same privileges and shall be reemployed under the same circumstances as if they had entered the Armed Services of the United States. This provision shall cover one enlistment only.

Section 6. Reporting

Any employee who fails to report to active employment at the expiration of a leave will be subject to the provisions of Article XIV, Section 13, Loss of Seniority, A-(1).

ARTICLE VII PAID LEAVES

Section 1. Jury Service

- A. An employee who is called for jury service (which includes grand jury service) or who is required by law to appear for examination by a jury commission prior to such jury service or is subpoenaed and reports for witness service and/or the giving of a deposition in a proceeding in a Court of Record will be reimbursed the difference between their normal rate of pay (i.e., average straight-time hourly earnings on a straight-time, 8-hour-per-day, 40-hour-per-week basis excluding shift premiums and all other premium pay) for necessary time lost because of such service and the amount of compensation received for such services. Provided that no such payment shall be made to an employee for such service on any day during which in accordance with the regular work schedule they would not have worked for the Company.
- B. In order for an employee to be eligible, the employee must
 - (1) immediately notify their supervisor of the receipt of summons for such service.
 - (2) furnish their supervisor proper evidence of their service.
- C. If a first shift or second shift employee is excused from service during the morning, the employee may report for work to finish the day. If such employee is excused, they will not be required to return to work until the following shift.
- D. A third shift employee will be excused from work on either the shift preceding their service, or the shift immediately following the completion of their service, at the option of the employee. Such employee must notify their immediate supervisor of their election prior to being absent from work.

ARTICLE VII, Section 1.

- E. Hours paid for by the Company under this Section count as hours worked for purposes of overtime.
- F. If an employee is entitled to receive jury duty make-up pay under this Section and such employee serves during a period of time when the employee is on vacation, the employee shall receive both jury service make-up pay and vacation pay.

Section 2. Bereavement

- A. When death occurs in their immediate family, i.e., spouse, son, daughter, and stepchild, an employee, on request, will be excused for any five (5) normal scheduled days of work (or for such fewer days as the employee may be absent) during the five (5) calendar days (excluding Saturdays, Sundays, and holidays) immediately following the date of death.
- B. When death occurs in their family, i.e., grandmother, grandfather, granddaughter, grandson, father, mother, mother-in-law, father-in-law, brother, sister, son-in-law, daughter-in-law, stepfather, stepmother, stepbrother, stepsister, and also the employee's spouse's brother, sister, and grandparents, an employee, on request, will be excused for any three (3) normal scheduled days of work (or for such fewer days as the employee may be absent) during the three (3) calendar days (excluding Saturdays, Sundays, and holidays) immediately following the date of death.

John Deere Ottumwa Works
John Deere Seeding Group/Cylinder Division
John Deere Waterloo –
Tractor and Cab Assembly Operations

Four (4) Committeepersons.

- B. **John Deere Dubuque Works**

Seven (7) Committeepersons.

C. John Deere Harvester Works - East Moline

Six (6) Committeepersons.

**D. John Deere Engine Works

Three (3) Committeepersons.

F. John Deere Waterloo Foundry

Two (2) Committeepersons.

G. John Deere Coffeyville Works

One (1) Committeeperson.

Whenever the number of employees in the bargaining unit exceeds four hundred (400), then the Union may be represented by two (2) Committeepersons.

Section 9. Duties and Responsibilities

A. The jurisdictional area of each Committeeperson is subject to agreement between the Union and the Company.

B. The Committeepersons will have the right to devote full time to the discharge of their duties as Union representatives as specifically enumerated in this Agreement, whether in or out of the plant. They will, however, be compensated by the Company on the basis of their average straight-time hourly earnings on the basis of forty (40) hours per week subject to the following:

(1) The Committeepersons will be treated as on leave of absence under Article VI, Section 2-C, for all purposes with the following exceptions:

ARTICLE XI, Section 9.

- a. They will be eligible for vacation and vacation pay computed in accordance with Article XVI. The vacation earnings figures will include all sums paid by the Company under this Section.
- b. They will be credited with pension earnings including all sums paid by the Company under this Section.
- c. The Company will provide them with the Group Life Insurance provided in Appendix "I" at no cost to them. The earnings figure will include all sums paid by the Company under this Section, except those payments provided by Section 9-B-(2) of this Article.
- d. The Company will provide them with the benefits under Appendices "B" and "C" at no cost to them.

(2) Committeeperson's Overtime Pay

- a. Committeeperson's overtime compensation will be based on a determination of the average number of overtime hours worked each workweek by each bargaining unit employee. This average will be determined by dividing the total number of bargaining unit overtime hours worked each workweek by the total number of bargaining unit employees who worked and received pay in the workweek.
- b. Each Committeeperson will be paid time and one-half for the number of hours determined in a. above. Pay will be computed to the nearest one-tenth (.10) of an hour.
- c. In the application of Paragraphs a and b above, for example:

The number of employees in a bargaining unit totaled four thousand (4,000) employees. One thousand (1,000) employees worked eight (8)

ARTICLE XI, Section 9.

hours on Saturday. One thousand (1,000) employees worked eight (8) hours on Sunday. Four hundred (400) employees worked two (2) hours overtime on five (5) regular workdays. The total number of hours of overtime worked would be:

1,000	x	8	=	8,000 hours
1,000	x	8	=	8,000 hours
400	x	10	=	4,000 hours
TOTAL			=	20,000 hours

This number (20,000) would be divided by the number of employees (4,000) to determine overtime hours payable to each Committeeperson for the workweek.

$\frac{20,000}{4,000}$	=	5
------------------------	---	---

Thus, each Committeeperson would receive five (5) hours of pay for the workweek at time and one-half.

- (3) It is understood and agreed that no payment will be made to the Committeepersons under this Section for any absence of theirs as a result of vacation, in-plant injury for which they receive a benefit under Workers Compensation, or non-occupational illness or injury for which they receive a benefit.
 - (4) It is understood and agreed that upon sufficient advance written notice from the Chairperson, President, or Recording Secretary, the Company will recognize and will pay in accordance with this Section, the duly authorized alternates for the Committeepersons during any absence of theirs of a week or more.
- C. The Committeepersons will represent the Union only as provided for in Article XII, Grievance Procedure, and in Article IV, Disciplinary Action.

Section 10. Union Time Study Representatives

- A. The Union shall have the services of two (2) Union Time Study Representatives at each unit, trained by the Company for a period not to exceed three (3) months. When the employees are so trained, they shall return to their regular job in the unit.
- B. The duties of a Union Time Study Representative shall consist of supporting CIPP Plan development, and maintenance, and in the investigation of disputes involving Article XVIII, Wages, Section 6, Continuous Improvement Pay System.
- C. The Company agrees to pay these Union Time Study Representatives for time which they lose from their work in the performance of their duties with a maximum time of one-hundred sixty (160) hours over a four (4) week period beginning with the effective date of this Agreement. The number of hours allotted may be pooled over a four (4) week period, beginning with the effective date of this Agreement, and any Union Time Study Representative may use all or any part of the total number of hours allotted. This time shall be paid on the basis of the respective Union Time Study Representative's average straight-time hourly earnings as computed in Section 12 of Article XVIII. All time in excess of this one-hundred sixty (160) hours allowed for Union Time Study Representatives over a four (4) week period shall be paid for by the Union, except that the Company will pay for such time spent directly at its request.
- D. Should the Company transfer one of these Union Time Study Representatives to a position outside the bargaining unit, a replacement will be trained by the Company at its expense on the basis of the employee's average straight-time hourly earnings as computed in Section 12 of Article XVIII.
- E. The cost of training a replacement for a vacancy caused by other than the action stated in Paragraph D above shall be borne entirely by the Union.

ARTICLE XI, Section 10.

- F. In selecting a replacement, the Union shall submit the names of five (5) employees, who shall meet qualifications set up by the Company. From this group the Company shall select three (3) whom it deems qualified for this work. The Union shall then select one (1) of these three (3) to receive the training.

- B. The duties of the Union Safety Representative shall consist only in making joint investigations with a Company Safety Representative, except as provided in Paragraph C below. When a grievance arises over a specific safety condition which cannot be settled satisfactorily in Step 1 of the Grievance Procedure, then at Step 2 of the Grievance Procedure, the Company or the Union may request that a joint investigation be made. This joint investigation shall consist of a physical inspection of the condition complained of where the circumstance makes it necessary to do so. Every effort will be made to have the joint investigation completed before the date of the Special Step 3 meeting. If the Chairperson and the Manager of Labor Relations agree, the joint investigation will be filmed. Such film shall be used exclusively in the handling of that grievance in the Grievance Procedure.
- C. The following equipment will be made available in the Safety Department of all factories to be used if required in making joint safety investigations:
- (1) Noise Meters.
 - (2) Velocity Measuring Equipment (such as Alnor Velometer).
 - (3) Universal Tester for Carbon Monoxide.

ARTICLE XI, Section 11.

- D. The Union Safety Representative, upon request from the Chairperson or a Committeeperson, may investigate factory accidents and alleged specific unsafe or unsanitary conditions in the factory. They will be accompanied by a representative designated by the Company on these investigations.
- E. Such Union Safety Representative shall in no way participate in the establishment of safety policy, but shall act only in cases where an existing condition becomes a matter of dispute and a request is made by the Company or the Union for a joint investigation, as provided in Paragraph B of this Section.
- F. The Company agrees to pay the Union Safety Representative for time which they lose from work in making joint investigations and in analyzing the data thereby obtained a maximum time of one-hundred sixty (160) hours over a four (4) week period beginning with the effective date of this Agreement. This time shall be paid on the basis of the respective Union Safety Representative's average straight-time hourly earnings. All time in excess of this one-hundred sixty (160) hours allowed for the Union Safety Representative over a four (4) week period shall be paid for by the Union, except that the Company will pay for such time spent directly at its request.
- G. Should the Company transfer the Union Safety Representative to a position outside the bargaining unit, a replacement will be trained by the Company at its expense on the basis of the employee's average straight-time hourly earnings.
- H. The cost of training a replacement for a vacancy caused by other than the action stated in Paragraph G above shall be borne entirely by the Union.

ARTICLE XI, Section 11.

- I. In selecting each Safety Representative or replacement, the Union shall submit the names of five (5) employees, who shall meet qualifications set up by the Company. From this group the Company shall select three (3) whom it deems qualified for this work. The Union shall then select one (1) of these three (3) to receive the training.
- J. The Union Safety Representative will be a member of the Hazardous Materials Control Committee.

Section 12. General Provisions

- E. With respect to the number of departmental stewards as herein provided, the Union will not be required to change the number of such representatives to conform to such provisions until sixty (60) days after notice from the Company that changes are required; provided, however,

that there is work required to be performed within the area in which the Union representative serves, and provided further that the Union representatives are qualified to perform the work.

- F. An International Union Representative shall be entitled, upon request to the Manager of Labor Relations, to inspect in Company with the latter and the Chairperson, or their designee, any work area of the plant covered by the bargaining unit where the circumstances of the grievance make it reasonably necessary to make an inspection of physical working conditions involved in the grievance. It is understood that the above conditions only apply after the grievance has been discussed or is being discussed in a Step 3 meeting, but prior to being answered by the Company in that Step, or at any time after the grievance has been appealed beyond Step 3, but prior to any arbitration hearing.
- G. An International Union Representative designated as a Certified Industrial Hygienist shall be entitled, upon specific request made as a part of an appropriate Union request for a Special Step 3 meeting as provided in Article XII, Section 5, to inspect, in Company with the Chairperson, the Union Safety Representative, a Union member of the Plant Safety Committee and with the Manager of Labor Relations, a Company member of the Plant Safety Committee, the Works Manager or their representative, and a representative of Deere & Company's Safety Department, any work area of the plant involved in a grievance to be considered in such a Special Step 3 meeting.

Deductions shall be made thereafter, only under "Authorization for Checkoff of Dues" forms which have been properly executed and are in effect. Any "Authorization for Checkoff of Dues" which is incomplete or in error will be returned to the Union by the Company.

ARTICLE XIII, Section 5.

- D. Checkoff deductions under all properly executed "Authorization for Checkoff of Dues" forms which have been delivered to the Company on or before the effective date of this Agreement, shall begin with the month following.
- E. Thereafter, on or before the fifteenth (15th) day of each month, the Union shall deliver to the Company any executed "Authorization for Checkoff of Dues" forms under which Union membership dues are to be deducted beginning with the following calendar month. In the event that membership dues other than those for the calendar month in which the deduction is made and initiation fees have become due and owing by an employee subsequent to the effective date of said employee's "Authorization for Checkoff of Dues" form, but prior to the first deduction by the Company thereunder, such membership dues and initiation fees will be deducted by the Company at the time it makes the first deduction for membership dues. The Union will notify the Company, in writing, when it makes delivery of "Authorization for Checkoff of Dues" forms prior to the 15th of each month, of the amounts owing by employees who executed these forms.

The Company will notify the Union following the end of each month of the names of such employees and will designate the reason each such employee ceased to be subject to the checkoff.
- J. Any dispute which may arise as to whether or not an employee properly executed or properly revoked an "Authorization for Checkoff of Dues" form, shall be reviewed with the employee by a representative of the Union and a representative of the Company. B. A senior employee displaced from their work assignment in a seniority classification involving more than one department will be placed in other employment in the following order:

- (1) The procedure as outlined in A-(1), (2), and (3) above will be followed.
- (2) Upon completion of the procedure set out in B-(1) above, the employee being removed will be assigned (1) to a vacant assignment in the seniority classification in any other department, (2) to replace any probationary employee in the seniority classification in any other department, or (3) to replace the employee, if any, junior to them with the least seniority in the seniority classification in any other department.

ARTICLE XIV, Section 6.

- C. Upon the completion of A and B above an employee will be assigned to a vacant work assignment in the bargaining unit. If there are no vacant work assignments in the bargaining unit, then the employee will displace the employee with the least seniority in the bargaining unit.
- D. When a need arises to reassign an employee because of job bidding, layoff, or any reduction, the employee may be assigned to departments, work locations or machines within a seniority classification, provided that preference of the employee based on their relative seniority status is observed.
- E. In all adjustments made under this Section, the remaining employees must be qualified to perform the work required.

Section 7. Notice of Layoffs

- A. The Company will give notice of scheduled layoffs.
- B. An employee will be notified of a scheduled layoff from active employment on or prior to the last scheduled workday of the established workweek prior to the last established workweek they are scheduled to work. If it becomes necessary to begin a scheduled layoff prior to the end of the workweek following notice of a scheduled layoff, the Company will pay the laid off employee their average straight-time hourly earnings for the remaining hours they had been scheduled to work during that established workweek minus any State Unemployment Benefits, if any, for which they are eligible.
- C. A list showing the names of employees who are to be laid off out of the plant, or who are to be recalled to the plant, will be submitted to the Chairperson at the time the employee(s) is given notice. If any deviation is made from seniority, an explanation of the same shall be made by the Company.

ARTICLE XIV, Section 7.

D. Layoff Notice Procedure

- (1) Notices will be posted by the second Friday before the Monday of layoff listing the names of the employees with seniority subject to be laid off. (The posting locations will be agreed upon by the Union and the LR/HR Manager at the individual factory.) Actual notice will be given to the named employees notifying them of layoff.
- (2) An employee notified of a scheduled layoff which is later cancelled will have the same rights under this agreement as if they had not been scheduled for layoff.

Section 8. Recalls and Restorations

- A. All recalls and restorations will be made in accordance with the employee's seniority, unless otherwise provided for herein, provided in all cases the employee must be qualified to perform the work required.
- B. Recall or Restoration

An employee with seniority will be recalled or restored in order of their seniority. When such employee is restored to their seniority classification, the Company will return them to their former department and assignment where the opportunity to do so exists, provided that the employee has more seniority than any employee who might be replaced by the operation of this provision.

Section 9. Labor Market Area Seniority (LMAS)

- A. For the purpose of this Section, excluding the Waterloo area bargaining units, "Labor Market Area" shall be confined to a fifty (50) mile radius of the bargaining unit.

ARTICLE XIV, Section 9.

- B. An employee with seniority will be placed on the Labor Market Area Seniority List one (1) calendar week after layoff from any UAW bargaining unit covered by this Agreement within the Labor Market Area. An employee with seniority on layoff from a UAW bargaining unit, covered by this Agreement, outside the Labor Market Area will be placed on the LMAS list one (1) calendar week after the Company is notified in writing of such request. Such written notice will be filed with the LR/HR Department at the unit from which the employee is laid off. No employee will be placed on the list who is laid off under the provisions of Article XIV, Section 4-A-(3), (4), and (5). Employees will be placed on the LMAS list in the order of their seniority in their original bargaining unit. In those instances where two (2) or more employees have the same seniority date, the employees will be listed in alphabetical order. An employee with one (1) or more years of seniority at the time of layoff will be offered employment before an employee who had less than one (1) year of seniority at the time of layoff.
- C. If one of the UAW bargaining units in the Labor Market Area needs additional employees and has no employees on layoff, then it will offer employment to qualified employees on the LMAS list before new employees are hired on the following basis:
- (1) Employees with one (1) or more years of seniority at the time of layoff.
 - a. Employment will first be offered to the senior employee on the LMAS list whose seniority classification covers the vacant work assignment to be filled.
 - b. If the vacant work assignment is not filled in a. above, employment will next be offered to employees on the LMAS list in order of their seniority, the most senior employee first.

ARTICLE XIV, Section 9.

- (2) Employees with less than one (1) year of seniority at the time of layoff.
 - a. If the vacant work assignment is not filled in (1) above, employment will be offered to the senior employee whose seniority classification covers the vacant work assignment.
 - b. If the vacant work assignment is not filled in (1) or (2)-a above, employment will next be offered to employees on the LMAS list in order of their seniority, the most senior employee first.
- D. An employee who accepts employment under this Section will have their seniority date established at the employing factory as of their first day of work in that bargaining unit.
- E. An employee on the LMAS list will be notified of an offer of employment by registered or certified mail, or by being personally contacted by telephone. An employee who has been offered employment under this Section must accept or refuse such offer of employment within 48 hours from the time the letter is delivered. An employee who accepts an offer of employment will have five (5) working days from the date of notice to report for work.
- F. An employee will be removed from the LMAS list when:
 - (1) They accept employment under this Section.
 - (2) They are recalled under the terms of this Agreement.
 - (3) They decline an offer of employment under this Section.
 - (4) They fail to report for work within the time limits provided in E above, unless they have a satisfactory reason for not reporting.

ARTICLE XIV, Section 9.

- (5) They no longer have any recall rights to any bargaining unit covered by this Agreement in the Labor Market Area.

- G. An employee on the LMAS list will be excused from accepting an offer of employment under the terms of this Section if illness prevented their acceptance of such offer. In such case, the employee's name will remain on the LMAS list. Upon recovery from the employee's period of illness, they may elect to displace the last employee hired from the LMAS list. If the employee fails to so elect within ten (10) working days after the employee obtains a medical release to return to work, their name will be removed from the LMAS list.

- H. No employee will be placed on the LMAS list who quits from any UAW bargaining unit covered by this Agreement.

- I. Employees laid off and desiring to retain their seniority rights must keep the Company informed of their current address(es).

- J. An employee from within the Labor Market Area who fails to report for work, declines an offer of employment, or declines recall to their original bargaining unit will be ineligible for SUB.

- K. An employee who accepts an offer of employment under this Section may decline recall to their original bargaining unit, provided however, the provisions of Paragraph L of this Section will not apply when such employee refuses recall. Notification of election to remain at the employing factory must be made to the employing factory's LR/HR Department no later than the workday following the day in which they receive notice of recall.

- L. An employee with one (1) or more years of seniority at the time of layoff from their original bargaining unit who accepts employment under this Section will not be laid off from the employing factory until the layoff of all other employees with less than one (1) year of seniority.

ARTICLE XIV, Section 9.

- M. An employee who has acquired seniority rights in another bargaining unit through the application of this Section will lose such seniority rights upon being recalled to their original bargaining unit except as provided in Paragraph K above.
- N. In the application of the provisions of this Section, the employee must be qualified to perform the work required.
- O. Grievances involving an alleged violation of this Section will be filed at the bargaining unit from which the employee was originally laid off. To be considered, the grievance must be filed within thirty (30) calendar days from the date of the offer of employment which caused the alleged violation. Any liability involved will commence on the date the grievance was filed.
- P. The Union will be furnished the LMAS list on a weekly basis.

Section 10. Outside Labor Market Area Seniority

- A. Waterloo Foundry employees who complete a Special Job Bid will be given priority of hire into the rest of Waterloo Operations prior to the employees who make application under the remaining provisions of this Section 10.
- B. Except as provided above in Section 10-A, application by an employee laid off from one bargaining unit covered by this Agreement will, based on similar qualifications, be given preference over other applicants in making a new hire to fill a vacancy in another bargaining unit covered by this Agreement outside of the labor market area of the unit from which such employee is on layoff.
 - (1) If more than one such laid off employee applies for the same work based on similar qualifications, the senior employee will be offered the assignment.
 - (2) An employee who accepts employment under this Section will have their seniority date established at the employing factory as of their first day of work in that bargaining unit.

ARTICLE XIV, Section 10.

- C. An employee who accepts an offer of employment under this Section may decline recall to their original bargaining unit, provided however, the provisions of Paragraph D of this Section will not apply when such employee refuses recall. Notification of election to remain at the employing factory must be made to the employing factory's LR/HR Department no later than the workday following the day in which they receive notice of recall.
- D. An employee with one (1) or more years of seniority at the time of layoff from their original bargaining unit who accepted employment under this Section will not be laid off from the employing factory until the layoff of all other employees with less than one (1) year of seniority.
- E. An employee who has acquired seniority rights in another bargaining unit through the application of this Section will lose such seniority rights upon being recalled to their original bargaining unit except as provided in Paragraph C above.
- F. In the application of the provisions of this Section, the employee must be qualified to perform the work required.
- G. Any grievance alleging a violation of this Section will be filed at the factory from which the employee was laid off and will be processed at the factory where the employee has filed their application for employment. The Manager of the LR/HR Department of the factory where the employee filed an application for employment will answer such grievance within fifteen (15) working days from the date the grievance was filed. If the employee is dissatisfied with the Company's answer, then the Chairperson of the bargaining unit where the employee filed application for employment may appeal the grievance to the Joint Appeal Board within sixty (60) days from the Company's answer to the grievance. If such appeal is not made within sixty (60) days, the grievance will be considered settled on the basis of the Company's answer. Any liability involved will commence on the date the grievance is filed.

Section 11. Layoff and Recall Grievances

It is understood that there shall be no redress to the Grievance Procedure by any employee, or the Union, in connection with layoff or recall unless a grievance is presented to the Company within ten (10) working days from receipt by the Union of the list of employees laid off or recalled. If such a grievance is presented, it shall enter Step 2 of the Grievance Procedure.

Section 12. Special Recall and Restoration Rights

- A. Should an employee be or have been laid off as a result of a factory closing or the discontinuance of a major function of a factory and who is or was offered and accepts or accepted employment at another factory and is or was then laid off from that factory, they will have recall rights under Article XIV, Section 13, Paragraph A-(4), to the employing factory based upon the seniority they had at the time of their layoff from the closed factory or from the factory where the major function was discontinued.

- B. Should an employee be or have been laid off as a result of a factory closing or the discontinuance of a major function of a factory and who accepts employment at another factory and is then reduced from their seniority classification in that factory, they will have restoration rights under Article XIV, Section 13, Paragraph B-(3), to their seniority classification in the employing factory based on the seniority they had at the time of their layoff from the closed factory or from the factory where the major function was discontinued.

Section 13. Loss of Seniority

- A. Any employee who has acquired seniority in a bargaining unit covered by this Agreement shall lose their seniority and employment will be broken for the following reasons only:

ARTICLE XIV, Section 13.

- (1) If they quit - either by (1) notifying the Company or (2) remaining away from work for three (3) consecutive working days without a satisfactory reason. In the event the Company terminates an employee because they remained away from work for three (3) consecutive working days without a satisfactory reason, they shall be notified by the Company by registered or certified mail of such termination. A copy of such notice of termination will be provided the Chairperson. Employees terminated as three-day quits will be allowed to meet with the Chairperson and the factory Manager of LR/HR or their designee upon request from the Chairperson to offer an explanation for their absence from work. If, after this meeting, the Company determines that the employee should be terminated pursuant to the provisions above, then the Union shall be provided with a copy of the minutes of this meeting.
- (2) If they are discharged.
- (3) If, after a layoff out of the plant they fail to report for work within five (5) working days after being notified, in writing, by registered or certified mail to do so at their last known address, unless prevented by illness or other satisfactory reason. Employees laid off and desiring to retain their seniority rights must keep their addresses known to the Company.
- (4) Any absence from active employment (except for the period of time of a formal leave of absence, a plant-incurred injury, military service, or Long-Term Disability Benefits, as set forth in Appendix "C," or Total and Permanent Disability Retirement) for a period of time equal to the employee's seniority prior to such absence. However, in no instance will an employee's seniority and employment be broken by an absence of less than two (2) years.
- (5) Death or retirement or determination of permanent and total disability as specified in the John Deere Pension Plan for Wage Employees, except that an

ARTICLE XIV, Section 13.

employee who had been determined to be totally and permanently disabled, but who recovers and is subsequently reemployed shall have their seniority reinstated as though they had been continued on a leave of absence during the period of their disability.

- B. An employee will lose their seniority rights in their seniority classification by:
- (1) Losing their seniority as set out in A above.
 - (2) Transfer to a seniority classification as a result of job bidding or a voluntary transfer to a seniority classification to fill a vacancy created by job bidding or a transfer to a seniority classification as an incapacitated employee as provided for in Section 18. In these circumstances, their seniority will be transferred to such seniority classification which will thereafter be treated as their seniority classification. In the case of the incapacitated employee, however, should they be working in a secondary seniority classification when the incapacity occurs but the incapacity is one which does not incapacitate them for work in their seniority classification, they shall retain their recall rights to their seniority classification.
 - (3) Any absence from the seniority classification (except for the period of time of a formal leave of absence, a plant-incurred injury, military service, or Long-Term Disability Benefits, as set forth in Appendix "C," or Total and Permanent Disability Retirement) for a period of time equal to the employee's seniority prior to such absence or for a period of five (5) consecutive years, whichever is the lesser. However, in no instance will an employee's seniority rights in a seniority classification be broken by an absence from the seniority classification of less than two (2) years.

Should an employee lose their classification seniority under this paragraph, the secondary seniority classification will become their seniority classification. Should an employee lose their classification seniority under this paragraph while on layoff, the secondary seniority classification held at the time of layoff will become their seniority classification.

(4) An employee who has acquired seniority rights in a secondary seniority classification and who does not thereby lose their seniority rights in their seniority classification will lose such rights in the secondary seniority classification upon being reduced or laid off from the secondary seniority classification or upon return to their seniority classification.

C. An employee who accepts employment from the LMAS or Outside LMAS list shall carry their disciplinary record to and from the hiring unit(s). Discharge of an employee from any bargaining unit covered by this Agreement will terminate all employment and seniority rights of such employee in any and all bargaining units covered by this Agreement.

Section 14. Transfer In and Out of Bargaining Unit

A. An employee who was formerly in the group now covered by the bargaining unit, and who was transferred to a supervisory, salaried, or other position outside the bargaining unit, but not included in any other bargaining unit, or an employee who may in the future be transferred from the bargaining unit to a supervisory, salaried, or other position outside the bargaining unit, but not included in any other bargaining unit, and who later returns to the bargaining unit, shall be returned to the seniority classification last held prior to leaving the bargaining unit and shall have their seniority classification last held prior to leaving the bargaining unit and shall have their seniority accumulated and reestablished without loss. In the event the seniority classification last held does not exist, then the employee shall be subject to the remaining provisions of this Article.

ARTICLE XIV, Section 14.

- B. The Company will not use this provision to affect a reduction in the salaried workforce. The provision will be used to return a salaried employee who was formerly in the bargaining unit to the bargaining unit for reasons other than a reduction in force. One such reason would be where the employee requests that they be returned to the bargaining unit. This paragraph will not be construed to guarantee any employee an automatic right to return to the bargaining unit.

Section 15. Choice of Shifts

- A. Choice of shifts, not to exceed one (1) such choice in a period of ten (10) consecutive working days, on work which normally constitutes the daily task of the employees involved in the same department, or on work in the same department and seniority classification, shall be accorded employees in accordance with their plant-wide seniority, except on work where the skill and experience of certain individuals is necessary for the proper processing of the products, the operation of a department or the plant. It is also understood that the choice of shifts provided for in this Section shall not apply in the case of rotating shift operations.
- B. The President of the Local Union, Vice President of the Local Union, Committeepersons, departmental stewards, Union Time Study Representatives, and Union Safety Representative shall not be removed from the shift on which they are employed as Committeepersons, departmental stewards, Union Time Study Representatives, or Union Safety Representative by the application of seniority in the choice of shifts.

Section 16. Preferential Seniority

- A. The following UAW Local representatives, during their term of office, shall, in connection with layoff, recall, reduction or restoration as set out in this Article, head the seniority list: President of the Local Union, Vice President of the Local Union, Committeepersons, Union Time and Union Safety Representatives.

ARTICLE XIV, Section 16.

- B. All departmental stewards, during their term of office, shall, in connection with layoffs, recall, reduction, or restoration, as set out in this Article, be considered senior, except as provided in Paragraph A of this Section, to other employees in the seniority classification in which they are employed and the department or area they serve as department steward.
- C. In connection with all of the foregoing paragraphs of this Section, it is understood and agreed that no Union representative, as mentioned in this Section, shall exercise this special seniority status unless they have a minimum of seven (7) months' active employment with the Company, and unless they are qualified to perform the work of the employee they replace. It is further understood and agreed with respect to the Union representatives mentioned in this Section, that upon termination of their duties as Union representatives, they shall be returned to their proper places on the seniority list.
- D. The President of the Local Union, Vice President of the Local Union, Union Time Study Representatives, Union Safety Representative and departmental stewards, shall not be sent home because of lack of work while employees whom they represent as Union officials are working in the plant.

Section 17. Job Bidding

- A. When it becomes necessary to add employees to any seniority classification, such vacancies, except those created by job bidding, will be subject to job bidding after the recall or restoration of all employees with recall or restoration rights to the seniority classification.
- B. Any vacancy which in the best judgment of the Company is of a temporary nature, that is, of less than sixty (60) days' duration, shall not be listed as a vacancy and it shall not be posted for bidding.

ARTICLE XIV, Section 17.

- C. The Company shall post the vacancy to be filled on bulletin boards in the plant. No vacancy shall be posted during the annual inventory and vacation shutdown period. The posting shall list the seniority classification and department in which the vacancy exists and the qualifications for the work assignment. It is agreed that the Company shall have the right to prescribe the qualifications necessary for each posted vacancy.
- D. Any employee who is working in the seniority classification and in the department in which the vacancy exists may request from the supervisor of the department assignment to the vacancy. If more than one such employee requests assignment to the vacancy, the supervisor will transfer the employee with the greatest seniority to the vacancy, provided they are qualified to perform the work, and provided the employee's request has been made before the expiration of the posting date referred to in Paragraph F below. In such an event, the vacancy created by the transfer will be the vacancy to be filled by job bidding.
- E. Any employee with seniority, excluding those employees in the seniority classification within the department in which the vacancy exists, who can qualify or believes to be qualified, may apply for the vacancy by submitting a completed "Application for Vacancy" form to the LR/HR Department within the period specified.
- F. When the vacancy has been posted for two (2) working days (48 hours), the Company shall remove the posting from the bulletin boards and accept no more applications for the vacancy. From the applications filed, the Company shall determine those who are qualified, and from this group, if there be more than one (1), shall fill the vacancy as hereinafter set out:
 - (1) The senior qualified applicant. However, in jobs in Pay Level 7, the senior job bid applicant will be selected except where physical qualifications and/or specific skills are necessary to perform the required work such as the ability to operate a motor vehicle.

ARTICLE XIV, Section 17.

- (2) If it is determined by the Company that there are no qualified applicants and the Company is unable to hire qualified employees within thirty (30) days from the date the vacancy is posted, then the Company shall give consideration to those applicants, or those employees considered not qualified under Paragraph D of this Section, whose records would seem to indicate they could learn satisfactorily to perform the required work before a new inexperienced employee shall be hired and trained for the work assignment.
 - (3) Assuming there are no experienced qualified applicants and there are no applicants whose record would seem to indicate that they could learn satisfactorily to perform the required work, then the Company may fill the vacancy by the transfer or hire of any employee or applicant.
- G. The Company shall, within two (2) weeks, transfer the successful bidder to the vacancy.
- H. Any employee who fills a vacancy by this bidding procedure and who fails to perform the job satisfactorily shall be returned to their previous assignment, department, and/or seniority classification, provided their seniority will permit such return.
- I. Any vacancies caused by this procedure may be filled by the Company by recall or restoration before transfer or hire. The filling of the vacancy left by the job bidder will be filled subject to the possible failure of the job bidder on the posted vacancy, but the transfer of a replacement for the job bidder, if the job bidder fails to perform the job satisfactorily, will not be considered a temporary assignment and no special pay provisions will be involved.

Section 18. Incapacitated Employees

- A. An employee who has become permanently incapacitated for work in their seniority classification, or an employee who has become permanently incapacitated for work in their secondary seniority classification, or an employee returning

ARTICLE XIV, Section 18.

from service in the Armed Forces who is no longer physically or emotionally suited for their former work shall be transferred by the Company to any other work they can perform in accordance with the following procedure:

- B. The incapacitated employee will be placed in an open job if such a job exists, assuming they are qualified to perform such work.
- C. If there are no open jobs, as noted above, and if there are no jobs held by probationary employees which the incapacitated employee is qualified to perform, then the seniority list will be checked from the employee with the least seniority rights upward until a job is found which the incapacitated employee is qualified to perform. It is understood that no employee will be displaced who has greater seniority rights than that of the incapacitated employee. The employee displaced will be assigned in accordance with the appropriate provision(s) of this Article.
- D. Should a dispute arise under the provisions of this Section the parties will jointly select a third doctor to examine the employee. The purpose of this examination shall be to determine if the employee's disability is temporary or permanent, what the employee's work-related capabilities are, and the type of work the employee can be expected to perform with their physical limitations. The decision of the third doctor selected under this paragraph will be binding on the parties.
- E. The parties, by mutual agreement, may appoint a physician or an approved clinic or the staff of an approved hospital which will resolve medical disputes concerning the existence or nonexistence of either a total or partial disability which may arise in the application of this Section. If the parties are unable to agree on such appointment, the appointment will be made by the County Medical Association. The resulting decision will be binding upon the parties. The Union and Company will share equally any costs resulting from such appointments.

Section 19. Maintenance of the Seniority List

- A. Once each month, the Company will furnish the Chairperson with a record showing the names of all probationary employees who have acquired seniority during the preceding month.
- B. The seniority list shall be brought up to date once each month and will be posted in the plant and given to the Chairperson.
- C. The Company shall, within sixty (60) days from the effective date of this Agreement, furnish to the Union a list showing the seniority classification of each employee in the bargaining unit.

Section 20. Determination of Qualifications

- A. When an employee is subject to be laid off, reduced, recalled, or restored in accordance with the provisions of this Article, and a question arises as to their qualifications for such job, or if,
- B. Under the job bidding procedure of this Article a senior applicant is disqualified on the basis of their work record with the Company, and, if such applicant alleges they have the necessary qualifications based on their work experience outside the plant, and if there is a reasonable assumption that they may be qualified, then,
- C. Under the circumstances as set out in A and B above, such employee shall be given an opportunity to observe the job in question and to demonstrate with normal supervisory instruction their qualifications to perform the job. The length of time to be used for such determination shall be as determined by the supervisor.

ARTICLE XV INCOME SECURITY BENEFITS

Section 1. Eligibility and Duration

A. Eligibility for Income Security Benefits will arise:

- (1) When an employee, with one (1) year or more of seniority, is subject to reduction from their seniority classification, but is reassigned by the Company to a vacant lower-rated work assignment.
- (2) When a laid-off employee, with one (1) year or more of seniority at the time of their layoff, is recalled by the Company to a lower-rated work assignment(s) in the bargaining unit before the exhaustion of their period of eligibility for Income Security Benefits.
- (3) An employee with one (1) or more years' seniority on layoff from one bargaining unit covered by this Agreement who is offered and accepts employment in another bargaining unit covered by this Agreement outside of the same labor market area, or in the same labor market area, and in the manner and order as herein provided, will, if the work assignment is lower rated than the work assignment from which they were laid off or reduced, be eligible for Income Security Benefits for the remaining portion, if any, of their period of duration of eligibility for Income Security Benefits based on the date of their layoff or reduction from their original seniority classification in their original bargaining unit.

B. Duration of Benefits

The period of eligibility for Income Security Benefits of an employee with one (1) or more years of seniority will be the one hundred four (104) weeks immediately following their layoff or reduction from their seniority classification as provided in the Seniority Article.

Section 2. Limitations

- A. The eligibility for Income Security Benefits of an employee laid off from one Company unit and who is offered and who accepts a vacant, lower-rated work assignment in another bargaining unit covered by this Agreement will, in no case, extend beyond the end of the period for which they would have been eligible to receive Income Security Benefits at the time of their layoff or reduction from their seniority classification in their original bargaining unit.
- B. An employee who was determined eligible for Income Security Benefits in Section 1-A-(3) of this Article will waive their eligibility if they refuse a recall to their original unit under the provision of Section 9 or 10 of Article XIV of this Agreement.
- C. No employee will be eligible for Income Security Benefits unless they have acquired one (1) year of seniority at the time of the assignment giving rise to Income Security Benefits.

Section 3. Computation

- A. The computation rate for an employee shall be established as the employee's average wage rate (excluding any premium or bonus of any kind) for all hours paid for as hours worked on work assignments during the last four (4) pay periods they worked prior to their layoff or reduction from their seniority classification. The Income Security Benefit shall be established as the difference, if any, between the use of their computation rate and the use of the wage rate(s) for the work performed on the lower-rated work assignment(s) to which they are assigned or to which they are recalled during their eligibility period.
- B. The Income Security Benefit shall be paid on a pay period basis.
- C. Income Security Benefit payments will be considered as a part of wages for the purpose of determining wage related benefits.

ARTICLE XVI VACATION PLAN

Section 1. Vacation Year

The vacation year is determined by each employee's individual anniversary date of continuous employment as follows:

Section 2. Four Weeks

Employees having twenty-five (25) years or more of continuous employment as of their anniversary date, shall receive a vacation of four (4) weeks, with vacation pay computed on the basis of eight percent (8%) of their earnings as hereinafter defined.

The Company shall assign vacations to employees during such period and in so doing shall endeavor to allow vacations at the time requested by each eligible employee. If employees are laid off on or before their anniversary date, then such employees shall have their vacation scheduled to begin on their anniversary date. If employees are laid off after their anniversary date, then such employees shall have their vacation scheduled to begin at the date of their layoff. Provided, however, that if such employees request their vacation to be scheduled at a different period, then the provisions of Section 16 of this Article will not apply.

Such waiver must be in increments of not less than one (1) week, except that an employee eligible for three (3) weeks and twenty-four (24) hours may waive the twenty-four (24) hours. Upon receipt of written notice from the employee, vacation pay will be paid in lieu of time off.

Section 16. Holidays with Vacations

When one of the holidays set out in Section 14 of Article XVII falls during an employee's vacation, then the employee's vacation shall be extended by allowing one additional day of vacation. This extra day of vacation shall be the next scheduled working day following the end of the employee's vacation; or with prior approval of the employee's supervisor, the extra day of vacation may be the last scheduled working day prior to the start of the employee's vacation. It is understood and agreed that there is no additional vacation pay for the extra day of vacation and that the extra day of vacation is fully compensated for by the payment of holiday pay for the unworked holiday falling during their vacation.

Section 17. Deductions

On all vacation paychecks the Treasury Department regulations require deduction for withholding tax and social security tax. The Treasury Department also requests a deduction where bonds are being purchased. Therefore, the Company will make these deductions on vacation checks.

Section 18. Receipt of Vacation Pay

Employees who so desire will receive their vacation pay on the regular payday immediately preceding their vacation provided the Company has had at least one (1) week's prior notice.

Section 19. Vacation Shutdown

- A. Should the Company find it necessary to schedule a vacation shutdown, no objection will be raised as to scheduling of such a vacation shutdown if the Company notifies the Union and the employees prior to 1 April of the year of the scheduled shutdown. Employees will only be required to take one (1) week of annual vacation as part of vacation shutdown.

- B. In the event that the Company schedules a vacation shutdown of less than two (2) weeks, employees who are eligible for at least one (1) week of vacation may elect to use eligible vacation weeks in single day increments, per Article XVI, Section 14-D.

Section 20. Personal Vacation Days (PVD)

- A. Eligible employees shall receive six (6) personal vacation days on their one (1) year anniversary date and each year thereafter. Personal vacation days may be taken in individual increments of not less than one (1) hour, if the absence is for a reasonable cause, if the employee gives prior notice to the Company, and if the employee has worked some part of the employee's anniversary year.
- B. An employee may elect to use one (1) of their six (6) personal vacation days per anniversary year under the terms and conditions of Article VII, Section 3. This day must be used in a single, eight (8) hour block and is not eligible for a roll-over, as defined in Article VII, Section 3.
- C. This provision will apply to absence for personal business as set out in Section 1 of Article VI.
- D. Payment for this time will be computed at the employee's average straight-time hourly earnings as defined in Article XVIII, Section 12.
- E. Employees may take these personal vacation days or any remaining unused portion of them off as additional time off in connection with their vacations. If a holiday falls within the combined period, it will be treated as a holiday falling during a vacation.
- F. If an eligible employee desires to do so, they can take these days or any remaining portion of them, during a personal illness resulting from sickness or accident, including a personal illness which began on the first day of the anniversary year, if the employee had worked some part of the preceding anniversary year, under the following circumstances:

ARTICLE XVI, Section 20.

- (1) If the circumstances permit (for example, a planned operation), the employee shall notify the Company prior to leaving work that they are going to be absent.
 - (2) In the case of sickness or an accident which makes it impossible to give prior notice, this requirement will be waived if notice of the illness and the request for the personal leave time with pay is made within two (2) calendar weeks from the first day of absence.
 - (3) If it is impossible for the employee to give notice during the two (2) weeks, as set out above, they may do so within three (3) days from the date they report back to work.
 - (4) Where the employee elects to take personal vacation days with pay in connection with their illness, they are not thereby disqualified from receiving Weekly Indemnity Benefits for which they are otherwise qualified.
- G. Any unused personal vacation days will be paid out in the last pay period of the employee's anniversary year.
- H. Any employee who is placed on layoff will be paid for any remaining or unused personal vacation days with their last regular paycheck unless the employee requests in advance that this payment not be made.
- I. An employee who is absent from work on a scheduled workday for more than one (1) hour for reasons other than as set out above may request pay for such absence which will be granted if and to the extent they are eligible for such pay. The granting of such pay will in no way imply that the absence was or was not for a reasonable or satisfactory reason nor will it imply any waiver of the employee's obligation to make a reasonable and satisfactory effort to have notified the Company prior to such absence.

Provided, however, this provision will not apply if the employee failed to work or was absent for reasons other than those set out in Paragraph B above on both the last scheduled workday before the Christmas holidays and the first scheduled workday following the New Year holidays. Nothing in this paragraph will be construed to "schedule" the employee under Paragraph C of this Section for either of the workweeks involved.

Section 15. Distribution of Overtime

- A. When overtime work is required in a department and is assigned to a particular classification of labor, or a group, then such overtime will be divided as equally as possible among all employees in the designated classification of labor or group providing:

 - (2) That the employees are qualified to do the work required.

ARTICLE XVII, Section 15.

 - (4) That when the Company makes a reasonable attempt to notify the employee of overtime work available and is unable to contact the employee personally, the employee will not be credited with any overtime hours. Should this cause the spread to be exceeded, there shall be no liability on the Company, provided the employee who could not be contacted will be offered the next overtime available to them.
- B. When an employee enters a classification of labor or group, they will be credited with the maximum hours worked by any employee in the particular classification of labor or group.
 - C. When an employee returns to work after being absent for an extended period of time, (not less than one (1) week), they will be credited with the number of hours necessary to bring their spread up to what it was prior to such absence.
 - D. The running cumulative total of the overtime records will be accepted as correct unless an alleged entry for the day's hours is brought to the Company's attention within seven (7) working days of that entry. The overtime list will be available and accessible for review by any employee.
 - E. In the event the sixteen (16) hour spread is exceeded (in regard to the other employees of the overtime group) because of an improper overtime assignment within the overtime group, the employee with the least amount of overtime will be paid the hours necessary to bring them within the sixteen (16) hour spread. The principle of one payment to one employee for each mistake will apply.
 - F. Hours worked on Sundays and holidays will be considered overtime hours for the purposes of this Section.

Section 16. Report-in -- Call-in Pay

- A. An employee who has worked on the previous workday and who reports for work at their regular time on their regular shift unless they had been told in advance not to report, and whose regular work becomes unavailable prior to their completion of four (4) hours of work from the start of their regular shift, shall be offered other work on the following basis:
- (1) Employees shall receive not less than four (4) hours' work, which shall be paid for at the rate of the job assigned, but not less than their regular wage rate.

 - (2) An employee so recalled will be paid the appropriate shift premium, if any, determined by their starting time for the call-in period for the time they work.
- C. In either A or B above, such part of the four (4) hours worked shall be paid at the appropriate overtime rate, if overtime, and the unworked time shall be at straight time.
- D. The straight time provided under the above provision for unworked time, if any, shall not cancel out any payment for unworked time that may be due under Section 15 of this Article.

Section 17. Interference Shifts for CIPP Employees

- A. CIPP employees who are assigned to a three shift operation and who would otherwise experience interference in producing output hours during the time that one shift overlaps into the hours of another shall be assigned to interference shift hours as follows:

Provided, however, a CIPP employee who is on a special rate of pay immediately prior to the lunch period will receive such special rate of pay instead of CIPP rate.
- C. Determination of number of CIPP employees on interference shifts.
 - (1) The number of employees determined to be on an interference shift under Paragraph A of this Section will be based on the number of CIPP employees on interference shift on Monday of each week. Any change in the number of employees on interference shift because of either an increase or decrease in the number of such employees shall only be made on Monday of each week, except that if an entire shift within the same classification and department is added or eliminated, then such change would be effective on the date the change is made.

ARTICLE XVII, Section 17.

- (2) Third shift employees who are on an interference shift will remain on an interference shift when working their sixth working day. Also, employees who work first shift on Saturday will be considered on an interference shift provided both the preceding third shift and the second shift Saturday worked. Employees who work second shift Saturday will be considered on an interference shift provided both the preceding third shift and the first shift Saturday worked.

ARTICLE XVIII WAGES

Section 1. Basic Wage Rates

- A. The schedule of basic wage rates listed in Exhibit "A," Rate Schedule shall be effective during the term of this Agreement and subject to the provisions of this Article.
- B. All of the resulting cents-per-hour adjustments as determined by the application of the provisions of this Article shall be applied to the appropriate basic wage rates. These resulting total wage rates shall then be adjusted to the nearest one-half (1/2) cent.

Section 2. Total Wage Rates

- A. Effective on the first calendar Monday following the notification of ratification, wage rates for all employees shall be the basic rates as shown in Exhibit "A" attached hereto.
- B. General Wage Increases (GWIs) during the life of this Agreement will occur as follows:
 - (1) Effective the first calendar Monday following the notification of ratification, the basic rates as shown in Exhibit "A" attached hereto reflect an increase of ten percent (10%).
 - (2) Effective 2 October 2023 the total cost-of-living allowance defined in Section 3 below as applied to the basic rates as shown in Exhibit "A" attached hereto shall be increased by five percent (5%).
 - (3) Effective 6 October 2025 the total cost-of-living allowance defined in Section 3 below as applied to the basic rates as shown in Exhibit "A" attached hereto shall be increased by five percent (5%).

Section 3. Cost-of-Living Allowance

A. A cost-of-living allowance (COLA) as set forth in this Section shall be effective beginning December 2021.

(1) The cost-of-living allowance shall be adjusted up or down during the term of this Agreement and applied to the basic rates as shown in Exhibit "A" attached hereto. The resulting cents-per-hour shall be applied to the appropriate total rates as provided under Section 2 above in accordance with succeeding provisions of this Section on the basis of changes in the official Consumer Price Index-All Items (1967=100) Revised Urban Wage Earners and Clerical Workers (CPIW) published by the Bureau of Labor Statistics, United States Department of Labor and hereafter referred to as the BLS Consumer Price Index.

a. During the term of this Agreement, adjustments in the cost-of-living allowance shall be as follows:

EFFECTIVE DATE OF ADJUSTMENT	BASED UPON THE AVERAGE OF THE BLS CONSUMER PRICE INDEX FOR:
First pay period beginning on or after: December 2021 and at three-calendar-month intervals thereafter to June 2027.	August, September, and October 2021 and at three-calendar-month intervals thereafter to February, March, and April 2027.

In no event will a decline in the three-calendar-month average of the BLS Consumer Price Index below 792.15 provide the basis for a further wage decrease.

- b. The amount of cost-of-living allowance, which will be effective December 2021 through June 2027 for any three-calendar-month period as provided in Paragraph A-(1) above, shall be made using an initial bracket of thirty hundredths (0.30) and a COLA multiplier of thirty-seven one-thousandths percent (0.037%), based on the three-calendar-month average CPI for August, September, and October 2021, and at three-calendar-month intervals thereafter to February, March, and April 2027. Each year, the parties will recalibrate the bracket based on August, September, and October three-calendar-month average CPI, so that the COLA yield does not exceed one hundred percent (100%) of inflation.

The cost-of-living allowance percentage shall be applied to the basic rates shown in Exhibit "A" attached hereto and the resulting cents-per-hour shall be added to the rates as calculated above; provided however, notwithstanding the foregoing provisions of Section 3 above, one hundred eighty-five one-thousandths percent (0.185%) per hour will be permanently deducted from each quarterly adjustment starting with the December 2021 adjustment and ending with the June 2027 adjustment. If the adjustment amount due for a specific adjustment date is zero percent (0.000%) or less, no such permanent deductions will apply. If the adjustment amount for a specific adjustment date is less than the prescribed amount, the adjustment will be equal to the adjustment amount otherwise due. Following the June 2027 adjustment date, the total sum permanently deducted shall be subtracted from the cost-of-living adjustment table and the table shall be adjusted so that the actual three-month Consumer Price Index (averaged) equates to the cost-of-living actually paid during the period beginning after the June 2027 adjustment date.

ARTICLE XVIII, Section 3.

- c. In the event the Bureau of Labor Statistics does not issue the Consumer Price Index on or before the beginning of the pay period referred to in Paragraph A-(1)-a of this Section, any adjustments required shall be made at the beginning of the first pay period after issuance of the Index.
- d. No adjustments, retroactive or otherwise, shall be made due to any revision which may later be made in the published figures of the BLS Consumer Price Index.
- e. If the Bureau of Labor Statistics changes the form or the basis of calculating the BLS Consumer Price Index, the parties agree to request the Bureau to make available for the life of this Agreement a monthly Consumer Price Index in its present form and calculated on the same basis as the Index for June 2021.
- f. In the event of any other changes in the Index during the term of the Agreement, the parties will determine the appropriate Index to use. Any new COLA table will be constructed with a bracket that will not yield more than one hundred percent (100%) of inflation and will be recalibrated each year as described in Section 3-A-(1)-b above.

Section 4. Job Classifications

- A. The listing of job classifications and applicable pay levels for wage occupations showing the bargaining units covered hereby where each is applicable on the effective date of this Agreement are contained in Exhibit "C," which is attached to this Agreement and made a part thereof. Work covered by any job classification listed in Exhibit "C" may be included in a CIPP application.
- B. If a dispute arises as to whether or not a job classification, as set out in Exhibit "C" and as assigned to an employee, is proper for the type of work being performed, then such dispute may be subject to the Grievance Procedure.
- C. On introduction into any bargaining unit covered by this Agreement of new work not properly covered by the primary function of any job classification listed in Exhibit "C" as in effect on the effective date of this Agreement and applicable to said bargaining unit, the Company shall notify the Union in writing of the new job classification, including the job description and the pay level assigned.
- D. A grievance alleging the pay level assigned to a new job classification introduced under "C" above is inadequate shall enter Step 2 of the Grievance Procedure. Such a grievance will not be subject to arbitration but may, after the Special Step 3 meeting has been completed, be referred to strike action as provided in Article X.

Section 5. Establishment of Rates of Pay

- A. The rates of individual employees hired after the effective date of this Agreement shall be determined by the rate chart attached hereto as Exhibit "A," Rate Schedules.
- B. The rate of an employee transferred within a bargaining unit covered by this Agreement, or who is hired under the provisions of Sections 9 or 10 of Article XIV, after the effective date of this Agreement shall be as follows:

ARTICLE XVIII, Section 5.

- (1) If transferred to a job classification in the same pay level, the employee's current rate.
 - (2) If transferred to a job classification in a higher or lower pay level, the rate of pay for that level based upon Exhibit "A," Rate Schedules.
- C. An employee's work assignment is the classification(s) of work to which they are assigned as their regular work and may involve a specific machine(s) process(es), equipment, and/or work area(s).
- D. Definition: Temporary Assignment (not a transfer or formal reclassification): When, upon its completion, the employee is expected to return to their former assignment.
- E. When an employee is temporarily incapacitated from performing their regular work assignment and is assigned by the Company to another work assignment, such other work assignment will be considered a temporary assignment under D above, but will not extend beyond the duration of the period the employee would have been eligible to receive Weekly Indemnity or Supplemental Workers' Compensation Benefits had the incapacity been temporary total. The employee will be paid the wage rate of the temporary assignment or the wage rate of their regular assignment, whichever is higher. If the employee is still so assigned at the end of the period of time for which they would have been eligible for Weekly Indemnity or Supplemental Workers' Compensation Benefits had the incapacity been temporary total, the employee will be transferred and reclassified to the work assignment and paid accordingly.

Section 6. Continuous Improvement Pay System

Continuous Improvement Pay Plans (CIPP) reward teams of employees for helping achieve continuous improvement of the operations to which they are assigned. Continuous improvement requires a cooperative effort from all employees and provides employees the opportunity to both increase their earnings by sharing in these improvements and maintaining consistent weekly pay.

A. Outline of the Continuous Improvement Pay System

- (1) A Continuous Improvement Pay Plan provides incentive compensation to a team of employees for achieving continuous improvement on a weekly basis above the Base performance metric(s).
- (2) Weekly Plan Performance is a team's calculated weekly earnings level expressed as a percent. It is determined by increasing (or decreasing) the 120% weekly pay level for the team for the week by 67% of the percentage change in weekly results achieved, compared to each Base performance metric(s). When multiple metrics (e.g., quality, productivity, schedule performance, etc.) are used, each metric will be assigned a percentage weighting factor with the sum of the weighting factors equaling 100%. A Weekly Plan Performance is calculated for each metric as described above and then multiplied by its respective metric weighting factor. These individual metric calculations are then added together to arrive at the total Weekly Plan Performance.
- (3) Pay for an employee's attendance hours while participating in a CIPP application (input hours) within a given week is computed by multiplying the employee's wage rate(s) times the Weekly Pay Level for the week. Weekly Pay Level for each CIPP application will be determined as follows:
 - a. The maximum Weekly Pay Level for a CIPP application is 120%. Weekly hours earned in excess of 120% will be allocated to the CIPP application's Reserve Fund.
 - b. When Weekly Plan Performance for a CIPP application is between 100% and 120%, the hours required to build-up earnings to the maximum Weekly Pay Level for the plan's participants will be provided equally from the CIPP application's Reserve Fund Hours and the Company, if hours are available in the Reserve Fund.

ARTICLE XVIII, Section 6.

- c. When a CIPP application's Weekly Plan Performance provides an earnings level that is less than 100% of an employee's input hours times their base rate(s), the Company will provide build-up hours to a weekly pay level of 100% of their wage rate(s) for a plan participant's input hours in the plan. Weekly earnings will be built-up further to the maximum Weekly Pay Level according to Section 6-A-(3)-b.
- (4) The average fifty-two (52)-Week CIPP Plan Performance for each CIPP application, weighted by the plan participants' weekly input hours, will be calculated for each Base metric at the end of fifty-two (52) consecutive calendar weeks from the start of the plan and each fifty-two (52) consecutive calendar week period, thereafter.
 - a. When the Average fifty-two (52)-Week Plan Performance for a metric is less than or equal to 120%, its Base performance metric will not be changed for the next year.
 - b. When the Average fifty-two (52)-Week Plan Performance for a metric exceeds the maximum Weekly Pay Level of 120%, its Base performance metric will be adjusted by 0.66 of the percent of total team improvement in the output divided by input ratio as compared to the base for the next year; however, in no case will the base adjustment exceed four percent (4%) in any fifty-two (52)-Week CIPP Plan Year.

ARTICLE XVIII, Section 6.

For example:

Output hours in a year:	11000
Input hours in a year:	10000
Current base:	0.900
Year-end performance:	137.86%

$$\text{Output/Input} = 11000/10000 = 1.100$$

Base adjustment =

$$\left[\frac{(\text{output/input} - \text{Base})}{\text{Base}} \right] \times 0.66$$

Base adjustment =

$$\left[\frac{(1.100 - 0.900)}{0.900} \right] \times 0.66$$

Base Adjustment: $\{[(\text{year-end plan performance} - 120\%) / 120\%] / 0.67\} \times 0.66$

Base Adjustment: $22.21\% \times 0.66 = 14.66\%$

Since the calculated base adjustment is greater than 4%, a maximum of 4% base adjustment will be made. Refer to (4)-b above.

Base adjustment = 0.0400

New Base = $[\text{base adjustment} + 1] \times \text{old base}$

New Base = $[1.0400] \times 0.900$

New Base = 0.936

ARTICLE XVIII, Section 6.

In return for this adjustment, the Company will distribute a Base Adjustment Allowance of additional paid hours to the plan participants. Overtime premiums required by statute will be paid with the Base Adjustment Allowance.

- c. If a Base Adjustment Allowance is earned for a metric as provided in (4)-b above during a current 52-Week CIPP Plan Year and there was a Base Adjustment as provided in (4)-b above for that metric, each employee's Base Adjustment Allowance will be determined by multiplying the employee's input hours for the 52-Week CIPP Plan Year times the percentage the Base was adjusted for the next 52-Week CIPP Plan Year (factored by the Base metric's weighted hours) times a multiplier based upon the following criteria:
 - i. For those teams above 120% but less than 124.88%, with a base adjustment less than 4%, the employee input hours for the 52-Week CIPP Plan Year will be multiplied by the base adjustment (less than 4%) times 0.75.
 - ii. For those teams equal to or above 124.88% with a base adjustment equal to 4%, the employee input hours for the 52-Week CIPP Plan Year will be multiplied by the base adjustment (4%) times one (1).

For example, if an employee had 1000 input hours for the 52-Week CIPP Plan Year and there was a 4% adjustment of the base, and the base is weighted by 100% because there is only one metric, the Base Adjustment Allowance would be calculated as follows: 1000 (the input hours) x 4% (the same percentage the base was adjusted) x 1 (the additional premium for continuous improvement) = 40 hours.

- d. All remaining Reserve Funds Hours (accumulated weekly Reserve Fund Hours less hours used for

build-up) will be distributed to the plan's participants four (4) times per fifty-two (52)-Week CIPP Plan Year (at the end of each thirteen (13)- week period of the fifty-two (52)-Week CIPP Plan Year). The Reserve Fund Hours, if earned, will be distributed to the plan's participants based on a ratio of each participant's plan input hours to the total plan input hours at the end of each thirteen (13)-week period.

- e. The Base Adjustment Allowance, if earned, will be distributed to the plan's participants based on a ratio of each participant's plan input hours to the total plan input hours at the end of the entire fifty-two (52)-Week CIPP Plan Year.
- f. In the event the number of plan workweeks within a year is less than forty-eight (48) workweeks, the base and performance metric(s) will be adjusted on the basis of 0.66 of the total team improvement in the output/input ratio when compared to the base (not to exceed 4%) times the number of plan workweeks divided by forty-eight (48).

Example:

A CIPP plan has thirty-two (32) plan workweeks for the 52-Week CIPP Plan Year and 0.66 of the Total Team Improvement in output/input as compared to the base was 14.66%.

Base Adjustment: $\{[(\text{year-end plan performance} - 120\%) / 120\%] / 0.67\} \times 0.66$

Base Adjustment: $22.21\% \times 0.66 = 14.66\%$

Since the calculated base adjustment is greater than 4%, a maximum of 4% base adjustment will be made. Refer to (4)-b above.

Base Adjustment = $4\% \times 32/48 = 2.67\%$

ARTICLE XVIII, Section 6.

- (5) Each Base performance metric will be established using historical data, when available, or through comparative data and/or appropriate engineering techniques, such that weekly results equal to the Base performance metric will yield a Weekly Plan Performance of 120%.
- (6) Employees' time for the following situations should be excluded when establishing the Base performance metric and not be included as plan input hours when they occur.
 - a. Paid Lunch Hours.
 - b. Authorized Union Business.
 - c. Classroom Training.
 - d. Catastrophic downtime.
 - e. Special projects/assignments outside of plan operation.
 - f. Medical surveillance physicals and tests directed by the Company (not individual First-Aid Treatment).
 - g. Scheduled Company meetings (not to include daily or routine Production/Safety meetings).
 - h. Activities related to Emergency Response Teams and Evacuation.
- (7) All attendance hours not included as plan input hours will be paid for at the employees appropriate Wage Rate unless otherwise provided for in the Agreement.

B. Maintenance of CIPP Applications

- (1) In addition to Base adjustments described in Section 6-A-(4)-b, adjustments to Base performance metric(s) and/or output standards will be made for the following conditions:
 - a. The Company invests greater than \$50,000, or \$5,000 per plan participant, whichever is less, in a CIPP application area.
 - i. When an investment results in improved performance, the adjustments will account for only 80% of the calculated improvement to allow employees time to adjust to the change.
 - ii. When an investment results in deteriorating performance, the adjustments will account for the full effect of the deterioration.
 - b. Both parties agree that a change is necessary to assure the on-going competitiveness of the operation.
 - c. Work is moved into the plan from another area or out of the plan to another area.
 - d. Direct Labor is added to or deleted from the operations.
 - e. Introduction of new or revised products.

When new or revised products are introduced into a plan, output standards for the new and revised products will be established based on the design and methods of manufacture for the new or revised product. At this time, the Company may update the output standards of all products produced by the plan participants. In this case, the ratio of output hours produced to the plan participants' input hours (Base performance metric) will be adjusted to produce the same Weekly Plan Performance for this

ARTICLE XVIII, Section 6.

metric that was achieved prior to the change in the output standards.

- (2) Output Standards in CIPP applications will be established using procedures such as time study, standard data, plant data, video analysis, laboratory analysis, predetermined data systems, part family analysis, or any combination thereof.
 - a. No output standard shall be changed during the life of this Agreement except under the provisions of Section B-(1) of this Article. The Company will notify the Union of such changes, as requested.
 - b. Information on all output standards now established or set during the life of this Agreement shall be kept in an accessible place for reference and investigation by appropriate Union officials.
 - c. Any data or procedural analysis identified in Section B-(2) of this Article will be made available for inspection by appropriate Union officials.
 - d. In the event that an individual or group of output standards is questioned, the Company will make every attempt to resolve the question. If Company investigations do not resolve the questions, the Union Time Study Representative(s) or the appropriate Union representative will be asked to review the operation(s) in question. If these subsequent investigations do not resolve the question, the issue will be handled according to the National Joint Committee on Competitiveness Letter.
- (3) In the event that a CIPP application is not producing the desired results, the parties agree to meet, determine the extent of the problem, and develop solutions within the framework of the Continuous Improvement Pay System.

ARTICLE XVIII, Section 7.

- (4) To support the effective administration of CIPP plans, each CIPP plan will establish a CIPP maintenance team. Duties of these teams include assisting in maintaining the CIPP application as defined above.

C. CIPP Performance Corrective Action Process

- (1) To address consistent performance declines in CIPP Teams, such Teams will be monitored by the Factory Joint CIPP Steering Committee (FJCIPPSC). A decline will be defined as eight (8) consecutive, unseeded, weeks of declining year-to-date CIPP Team performance.
- (2) The following process will be used by the FJCIPPSC to determine prioritization of CIPP Teams for next steps. In making these decisions, the FJCIPPSC will take into consideration factors such as Team size, alleged reasons for decline, functional resource availability, and history of Team performance. Ownership of such activities will depend upon the level of CIPP Team performance decline.

CIPP Performance Corrective Action Process

PURPOSE: Ensure appropriate action / accountability when CIPP Teams experience declined performance.

Factory Joint CIPP Steering Committee

- Monitor CIPP Team performance
- Set priority for focused improvement
- Evaluate resource deployment

Section 7. Special Pay Provisions

In the following special conditions, an employee assigned to a CIPP plan shall be paid their Wage Rate X 120% for attendance hours that are not included as plan input hours.

- A. Classroom Training (other than employee break-in).
- B. Assignment to Non-CIPP work while their regular CIPP plan is in operation.
- C. Medical surveillance physicals and tests directed by the Company (not individual First-Aid Treatment).
- D. Scheduled Company meetings (not to include daily or routine Production/Safety meetings).

**Section 8. Adjustment of Wage Rate --
Temporary Assignment**

An employee temporarily assigned to perform work other than their regular work assignment (not a transfer or formal reclassification and the employee is expected to return to their regular assignment upon completion of the work) will have their wage rate adjusted as follows:

- A. CIPP assigned employee

Wage Rate of the temporary CIPP assignment or the Wage Rate of their regular assignment, whichever is higher.

B. Non-CIPP assigned employee

- (1) Assigned to CIPP Work - Wage Rate of the temporary assignment or the Wage Rate of their regular assignment, whichever is higher.
- (2) Assigned to other non-CIPP Work - wage rate of their regular assignment for the length of the shift, then the wage rate of their regular assignment or the wage rate of the temporary assignment, whichever is higher for any subsequent days.

Section 9. Continuous Improvement Process

A Joint UAW/Deere Continuous Improvement Process will commence no later than 1 January 2004. Only through continuous improvement can the Company remain competitive and employees enjoy secure employment and premium wages. In order to meet these objectives, the Deere and UAW leadership recognizes the importance of establishing and supporting a Joint UAW/Deere Continuous Improvement Process. This is required to ensure that a culture exists across the business and within the Union that promotes continuous improvement. This structured process is outlined in the UAW/Deere Continuous Improvement Process Letter.

Section 10. Daily Work Record

All work performed during the day will be recorded by the employee in the manner prescribed by the Company and no work shall be recorded that was not performed on that day. There shall be no change made in such employee record without their knowledge. The record shall, upon request, be available for employee reference.

Section 11. Inventory Pay

When an employee is temporarily required to perform work other than regular production or maintenance work in a department during the inventory period and while the inventory is actually underway in such department, they will be paid their regular wage rate.

Section 12. Computation of Average Straight-Time Hourly Earnings

The method of computing a wage employee's average straight-time hourly earnings shall be as follows:

Divide the sum of all money earned during the four (4) calendar weeks preceding such date for hours worked, excluding shift differential premium and overtime penalty pay, by the total of such hours worked. Newly hired employees or employees transferred from salary payroll to wage payroll shall have their average earnings based upon the wage rate of the classification to which they are first assigned until the next regular period for average earnings determination as outlined below.

An employee's average straight-time hourly earnings rate shall be their average straight-time hourly earnings for the four (4) week period prior to the notice given to the Union, and shall be effective the first day of the pay period the program is initiated (as set forth in the Average Earnings Letter), and shall be their rate for the payment of average earnings for the four (4) weeks that follow introduction. The one (1) week lag shall be maintained during the AGREEMENT. The annual inventory and/or vacation shutdown period will be disregarded in determining the four (4) week computed workweeks.

Section 4. Application and Standards

A. Eligible applicants, as set forth in Section 2, Paragraph B above, will be selected through the application of the standards as set forth in Paragraph B below.

B. Qualifying Standards

MAXIMUM POINTS	
(1) Aptitude test. If actual scores are used, grade in relation to minimum qualifying scores. If qualifying score alone is used, award maximum points to all qualifying.	45
(2) Education. Courses successfully completed beyond Grade 12 pertinent to the opening.	15
(3) Previous Work Experience and work habits.

(4) Evaluation of interviewer.	25

C. The apprenticeship or training opening(s) will be filled by the following process. The minimum qualifying point totals shall be 85 points: The Company will first look to applicants who scored 90 or above and take the most senior applicants based on number needed. If the number needed exceeds the number of applicants scoring 90 or above, then applicants who scored 85 points and above will be selected based on the senior applicants.

ARTICLE XIX, Section 4.

- D. It is understood that if none of the seniority applicants or applicants from the outside possess minimum qualifications, the posted opening will not be filled.
- E. The applicant will provide the Company with the applicant's academic records and past work experience.
- F. In the determination of work habits in Paragraph B-(3)-b above, the Company will communicate with the supervisors of seniority applicants and with previous employers to determine competency on jobs, overall work record, attendance, attitude and ability to get along with people, etc.
- G. The Company will utilize the normal hiring process interview to determine work behaviors.
- H. Qualified applicants will be interviewed individually and the Joint Apprenticeship Committee will determine the interview panel. The purpose of these interviews will be to determine and evaluate the applicant's motivational fit, vocational goals, and interests.
- I. The above selection procedure may be revised for continued compliance with Federal and State Legislation and Presidential Executive Orders and Directives.

Section 5. Seniority

- A. Enrolled apprentices and trainees will be exempt from the seniority provisions of the Agreement and there shall be no obligation on the part of the Company to continue the training if, in the judgment of the Company, the progress of the apprentice or trainee is unsatisfactory.
- B. When apprentices or trainees are removed from their training status, for any reason, including graduation, and are assigned to other employment in the plant, they shall receive credit for seniority purposes for the time spent in the apprenticeship or training program.

ARTICLE XIX, Section 5.

- C. Upon completion of the Apprenticeship or Training requirements, the employee will be classified in the particular job classification in which the employee had been enrolled. In the event there is no need for an additional employee in the classification, any reduction in force will be handled in accordance with the provisions of the Seniority Article.
- D. When it is determined by the Company that it is necessary to remove apprentices or trainees from a program because of a surplus in an apprenticeship or training program, the employee with the least number of credited hours will be removed first.
- E. When it is determined by the Company that it is necessary to increase the number of employees in an apprenticeship or training program, the employees removed under Paragraph D above will be returned to the program in the order of the employee with the highest credited hours first. Employees removed under Paragraph D above will be returned to their program before adding additional employees to that program.
- F. A surplus employee reduced under Paragraph D of this Section will be eligible for Income Security Benefits if they are otherwise qualified for such a benefit as provided in Article XV.

Section 6. Rates

- A. Apprentices in each of the job classifications covered by these standards shall be paid a progressively increasing schedule of wages as follows:

1st 1000 hours	65% of the maximum wage rate of the classification
2nd 1000 hours	70% of the maximum wage rate of the classification

ARTICLE XIX, Section 6.

3rd 1000 hours	75% of the maximum wage rate of the classification
4th 1000 hours	80% of the maximum wage rate of the classification
5th 1000 hours	85% of the maximum wage rate of the classification
6th 1000 hours	90% of the maximum wage rate of the classification
7th 1000 hours	95% of the maximum wage rate of the classification
8th 1000 hours	95% of the maximum wage rate of the classification
Upon completion of program	100% of the maximum wage rate of the classification

The Company will notify both the Local and International Union no less than thirty (30) days prior to the implementation of the Alternate Shift. JOINT DEERE-UAW PROGRAMS

ARTICLE I
NATIONAL JOINT EXECUTIVE COMMITTEE
ON UNION-MANAGEMENT RELATIONS

To provide assistance in improving their business relationships, Deere & Company and the UAW establish a National Joint Executive Committee on Union-Management Relationships (NJEC).

The NJEC will be composed of six members -- three from the Union and three from the Company. Two of the Union members and two of the Company members shall be permanent members and will, at any point in time, be the individuals then holding the following positions:

For the Union: Vice President and Director UAW
Agricultural Implement Department

Administrative Assistant to the above Vice
President

Designee of the Agricultural Implement
Department

For the Company: Officer of the Company Responsible for
Human Resources

Vice President, Labor Relations

Designee, Labor Relations Staff

While other Union members and other Company members will be as designated by the respective parties, no meeting of the NJEC will be held unless at least one permanent member from each party is present.

EXHIBIT "H" – ARTICLE I

The NJEC does not replace collective bargaining, nor does it interfere in any way with the parties' grievance and arbitration procedure. Rather, it provides a new forum designed to promote better Union-Management relations through better communications, systematic fact finding, and advance discussion of pertinent developments that are of mutual interest and significance to the Union, the Company, and employees. It is understood that the composition, organization, procedures, and functions of the NJEC are not subject to the grievance and arbitration procedure of the parties' Labor Agreement.

The NJEC will meet at such times, frequency, and locations as the permanent members may mutually agree. The NJEC will have two primary functions:

- A. To oversee, coordinate, and give guidance and direction to the following joint committees:
 - (1) Central Safety Committee
 - (2) Central Committee on Alcoholism and Drug Abuse
 - (3) Central Equal Opportunity Committee
 - (4) Central Apprenticeship Committee
 - (5) National JDEP Committee

- B. To discuss and assess other matters of mutual interest of a broad, corporate-wide nature. This would include such items as:
 - (1) Monitoring and improving the overall UAW-Deere labor relations climate,
 - (2) Discussing general operations and pertinent developments,

EXHIBIT "H" – ARTICLE I

- (3) Examining government relations and governmental regulations of mutual interest, and
- (4) Collecting, reviewing, and disseminating information and other data necessary to perform the functions of the NJEC.

The above list of items is illustrative; and topics, including those listed, are always subject to the mutual agreement of the parties.

As appropriate, the NJEC may establish ad hoc subcommittees or working groups to explore or resolve selected issues. Where there are appropriate issues of mutual interest and concern, the NJEC, upon approval of the Company's Director of Labor Relations and the Director of the UAW Agricultural Implement Department, may request periodic meetings between members of Company operating management and members of the UAW leadership.

Periodically, the NJEC may direct the preparation of a presentation on the state of the UAW-Deere relationship. As approved by the Company's Director of Labor Relations and the Director of the UAW Agricultural Implement Department, this presentation may be made to members of the Company's senior management and/or Union leadership bodies.

EXHIBIT "K"
JOHN DEERE JOB SECURITY PROTECTION
PROGRAM

Section 1. Statement of Purpose

In recent contracts, the Company and the Union agreed to various types of programs such as the Protected Employee Group (PEG) Program, the John Deere Jobs Preservation (JDJP) Program, and the John Deere Employment Program (JDEP) to address employee concerns about job security. In general, the parties would agree that these past programs achieved a degree of success in meeting certain objectives. This new John Deere Job Security Protection Program builds partially upon past principles, but includes important new features that should assist in broadening employment opportunities for new employees of the Company.

Section 2. Basic Benefit and Employment Guarantees

- A. Employees hired prior to 1 October 1999 will be entitled to job security protection for each Program Year as set forth in Section 3 of this Exhibit.
- B. Active employees hired on or after 1 October 1999, but prior to 1 October 2004 with fifteen (15) or more years of seniority at the time of layoff will be entitled to job security protection for each Program Year as set forth in Section 3 of this Exhibit.
- C. Active employees hired on or after 1 October 2004, but prior to 1 October 2009 with twenty (20) or more years of seniority at the time of layoff will be entitled to job security protection for each Program Year as set forth in Section 3 of this Exhibit.

Section 3. Job Security Protections

A. Basic Protections of Program

The basic commitment of the Company is that during the time that employees are eligible for job security protection, as defined in Section 2 of this Exhibit, they will no longer be subject to layoff beyond temporary inventory adjustment shutdown/layoffs and other limited conditions. This commitment provides true employment security because the risk of long term layoff and loss of recall rights is virtually eliminated for protected employees. The obligation to provide benefits to eligible employees under the job security provisions of this program shall arise, with the exceptions set forth in Section 4 below, in any case where an action by the Company would normally result in the layoff of an employee who is eligible for job security protection. Where applicable, the benefits provided can be generally defined as the opportunity for active work and/or other constructive activities and assignments for at least forty (40) hours in each workweek.

B. Program Year

A Program Year shall run from the first Monday in October each year to the first Monday in October of the following year.

C. Maintenance of Eligibility

An employee's ability to maintain job security protection shall be dependent upon that employee's seniority, skill, ability, and the other determining factors as provided for in the Master and Local Agreements.

D. Loss of Job Security Protections

An employee who is eligible for job security protection under the provisions of Section 2 of this Exhibit, shall lose the rights and benefits of that protection as provided for in Paragraph A above under the following circumstances:

EXHIBIT "K" – Section 3

- (1) Discharged for "good and just cause;"
- (2) Disciplinary suspension (for the period of the suspension);
- (3) Voluntary termination (including terminations under Article XIV, Section 13-A, subparagraphs (1) and (3) of the Agreement);
- (4) Retirement;
- (5) Death;
- (6) Refusing placement into Resource Pool;
- (7) Refusing assignment once in Resource Pool;
- (8) Failure to sign up for outside LMAS List after plant closing has eliminated employee's job;
- (9) Failure to accept an assignment from the LMAS or Outside LMAS List under the conditions set forth under (8) above.

Section 4. Temporary Layoffs

Employees are not protected against layoff in the following situations, which may result in a reduction of the benefits provided under this Program including a reduction in the forty (40) hours of available work in each workweek.

A. Short Term Layoffs

Layoffs which fall under Article XIV, Section 4-A-(5) and layoffs during the annual inventory and vacation shutdown period referred to in Article XIV, Section 4-A-(3), to employees who do not have sufficient vacation to cover the shutdown period. (No employee shall be laid off during a scheduled annual inventory and vacation shutdown unless the employee does not have sufficient continuous employment to be entitled to any vacation at the time of the shutdown.)

B. Temporary Inventory Adjustment Shutdowns/Layoffs

- (1) Temporary reductions in the workforce of up to sixteen (16) workweeks in any Program Year for the purposes of reducing or avoiding an increase in inventory because of sales prospects may be scheduled by the Company, unless with the approval of the National John Deere Job Security Protection Program Committee, the Chairman of the Shop Committee and the Company agree to additional workweeks.
- (2) The sixteen (16) workweek exception may be scheduled (in whole or part) by a Company facility, department, and/or distinct group of related operations in each covered bargaining unit; however, at the John Deere North American Parts Distribution Center and Parts Depots, such shutdowns may be scheduled by individual employee. For the purposes of applying this paragraph, the John Deere Waterloo Works-Westfield, John Deere Product Engineering Center, John Deere Waterloo Works-Tractor and Cab Assembly Operations, John Deere Waterloo Foundry, and John Deere Engine Works will be treated as separate facilities. Such shutdowns may be scheduled for different times and durations. The layoff and/or recall provisions of the Master and Local Agreements shall not be applicable to such shutdown workweeks.
- (3) The sixteen (16) workweeks (or any portion thereof) may be consecutive or nonconsecutive, but must be scheduled in full workweek periods, however, up to five (5) workweeks (i.e., twenty-five (25) working days) of the sixteen (16) workweek shutdown periods may be taken in less than full workweeks.
- (4) Individual employees in any unit shall not be adversely affected (i.e., subject to more than sixteen (16) workweeks of shutdown) under this section in any Program Year.

EXHIBIT "K" – Section 4

- (5) Employees placed on layoff under this Section will be paid a benefit for that week as provided under the applicable Supplemental Unemployment Benefit Plan, if otherwise eligible.
- (6) Employees affected by inventory adjustment shutdown/ layoffs will be considered scheduled for work for the purpose of determining holiday pay and vacation shutdown pay.
- (7) Supplemental Unemployment Benefits which are paid to employees pursuant to the provisions of Paragraph (5) of this section will not be used to count against an eligible employee's entitlement to receive such benefits in the event the employee is laid off pursuant to the provisions of Article XIV, Section 5.
- (8) For the purposes of this Section, a workweek is defined as a period of seven consecutive days beginning on a Monday.
- (9) Notification of adjustment shutdown/layoffs will be made in accordance with Article XIV, Section 7. For inventory adjustment shutdowns/layoffs of less than a full workweek, notification of such layoff shall be made before the end of the employee's preceding shift.
- (10) Adjustment shutdowns/layoffs that fall in the same week as a Holiday will be scheduled as individual days. If an adjustment shutdown/layoff week follows a vacation shutdown week, in which a Holiday occurs, individual days will be scheduled for the adjustment shutdown/layoff week.
- (11) Employees who are placed on Temporary Inventory Adjustment Shutdown in excess of eight (8) weeks during any Program Year will be eligible for adjusted vacation computation and profit-sharing benefits as follows:

EXHIBIT "K" – Section 4

- a. For purposes of vacation computation, each week of Temporary Inventory Adjustment Shutdown in excess of eight (8) weeks in any Program Year will be considered as a forty (40) hour workweek at the employee's average straight-time hourly rate of pay, pursuant to Article XVI, Section 7-A.
 - b. For purposes of profit sharing, each week of Temporary Inventory Adjustment Shutdown in excess of eight (8) weeks in any Program Year will be considered as forty (40) hours worked, pursuant to Appendix "J-1", Section 4-A-(1).
- (12) Upon request, the Company will provide a business case to the International UAW articulating the need for the Temporary Inventory Adjustment Shutdown weeks in excess of ten (10).

C. Other Exceptions

- (1) Layoffs arising out of or resulting from acts of God or other events beyond the Company's control.
- (2) A sale of the Company or any covered plant or facility shall eliminate the John Deere Job Security Protection Program and any of the benefits hereunder for all affected employees as of the closing date of the sale.
- (3) After the Company notifies the Union, in writing, of its final decision to permanently shut down a facility, there will be no further grow-in to the job security protections as provided in Section 2 of this Exhibit.

Section 5. Resource Employees

A. Purpose of Resource Pool

A Resource Pool may be maintained at each unit in order to provide continued employment opportunities to employees who would otherwise be subject to layoff based on their seniority status under the seniority provisions of both the Master and Local Agreements.

B. Assignments of John Deere Job Security Protection Program Protected Employees in the Resource Pool

When an employee has job security protection pursuant to this Program and the Company does not have a vacant work assignment for the individual, the Company may assign such employee to the Resource Pool. The parties recognize that the scope of such protections requires flexibility with regard to the assignment by the Company of duties and activities to Resource Pool employees and the selection of Resource Pool employees for training. Therefore, the following special assignment rules may be utilized for John Deere Job Security Protection Program protected employees who have been placed in the Resource Pool.

- (1) Placed in a training program.
- (2) Used as a replacement to facilitate the training of another employee or the assignment of another employee on a non-traditional job.
- (3) Given a job assignment within or outside the Bargaining Unit which may be non-traditional.
- (4) Placed in an existing opening.
- (5) Given a job assignment in another Bargaining Unit within the "Labor Market Area" as defined in Article XIV, Section 9. In such a case, the rights of the Resource Pool employee so assigned shall be identical to those they would have realized had they been hired from the LMAS list. No Resource Pool employee will be assigned to another Bargaining Unit in the Labor Market Area unless they are senior to the employee on the LMAS list who would otherwise have been hired for the opening, and either agreed to accept the assignment or is the least senior employee in the Resource Pool.

- (6) Temporarily transferred from a Bargaining Unit in the Quad-City area to any other Bargaining Unit in the Quad City area for up to one hundred twenty (120) workdays in any Program year; provided, however, that temporary assignments under this paragraph to covered Bargaining Units at other locations shall not be made if employees remain on the recall list at that location. Employees will have day one (1) seniority at the unit they are transferred to but retain relative seniority with employees from the same home unit. Reasonable assignments between Bargaining Units at separate locations for training purposes will not be subject to this restriction.
- (7) Given other assignments consistent with the purposes of this Exhibit. (For example, the Company may create jobs for Resource Pool employees under this paragraph by adding work to the factory that expands upon what has historically been the work of the Bargaining Unit.)

C. General Resource Pool Assignment Provisions

- (1) It is recognized that both John Deere Job Security Protection Program protected employees and non-protected employees may be placed into the Resource Pool as a result of the application of the seniority provisions of the Master and Local Agreements. The Company's assignment of Resource Pool employees shall not be restricted by seniority rules or other practices.
 - a. Employees assigned from the Resource Pool to temporary assignments in the Bargaining Unit will work the same schedules as the department and/or classification to which they are assigned including any required overtime. Such employees will be treated the same as any other employee with respect to any contractual notice requirements for such overtime unless it is impossible to do so. Any overtime worked by employees while on Resource Pool assignments

will not be charged to any overtime unit or group.

- b. Employees in the Resource Pool should be fully utilized to the best extent possible. Consequently, the Company will endeavor to assign Resource Pool employees to assignments whenever possible. In the event that the Company assigns no duties to a Resource Pool employee, they shall remain available for assignment upon reasonable notice in accordance with rules and procedures established by the Company for administration of the Resource Pool.
 - c. Employees assigned to the Resource Pool shall be removed from the Resource Pool in seniority order pursuant to the Master and Local Agreements as vacant work assignments become available, provided they are qualified to perform the work required.
- (2) The Company and International Union have agreed to the following guidelines to administer the Resource Pool:
- a. The wage rate of an employee transferred to the Resource Pool shall be established as the wage rate of the employee's last regular assignment prior to being placed into the Pool.
 - b. The wage rate of a Resource Pool employee who is temporarily assigned shall be the wage rate of the temporary assignment or the wage rate as established in paragraph (2)-a above, whichever is higher.
 - c. Such employees shall not be eligible for Income Security Benefits.
 - d. Resource Pool assignments will be considered temporary and not subject to provisions governing permanent filling of vacancies or the application of shift preference.

- e. An employee who is eligible for job security protection may decline the opportunity to be assigned to the Resource Pool, or while in the Resource Pool, decline an assignment. In such event, the employee will no longer be considered in the Resource Pool. The employee will be laid off until recalled in seniority order to a non-Resource Pool position. In no case may the employee then claim a violation of seniority rights because of a lesser seniority employee's job assignment.

Section 6. Administration

- A. At each Bargaining Unit covered by the 2021 Master Agreement, a Local John Deere Job Security Protection Program Committee will be established.
- B. The membership of the Committee will consist of the unit(s) Manager(s) of Labor Relations/Human Resources and a maximum of three other designated Company representatives, and the President and Chairperson(s) of the Bargaining Unit and two other committeepersons.
- C. The duties of the Local Committee will be:
 - (1) Periodically review the size and makeup of the Resource Pool and review the impact of openings as well as future requirements.
 - (2) Monitor the placement and assignments of employees in the Resource Pool.
 - (3) Review the assignment of Resource Pool employees to non-traditional work assignments for employees in the Resource Pool where practicable both within or outside the Bargaining Unit.

- (4) Review any complaint regarding the administration of the John Deere Job Security Protection Program. Refer unresolved complaints to the National Committee. Only those matters involving the size of the Resource Pool or governing the treatment of an employee assigned to or impacted by the Resource Pool will be subject to the Grievance Procedure.
 - (5) Jointly develop and initiate proposals to improve operational effectiveness to secure existing jobs and to attract customers and additional business, thus providing additional job opportunities.
- D. A National John Deere Job Security Protection Program Committee will be established at the Deere & Company-International Union level consisting of three (3) representatives selected by the Company and three (3) representatives selected by the Director of the UAW Deere Department.
- E. The National Committee will meet periodically as required to:
 - (1) Monitor the efforts of the Local Committees.
 - (2) Approve Local Committee efforts to improve operational effectiveness and coordinate those actions when appropriate.
- F. The National John Deere Job Security Protection Program Committee is specifically empowered to periodically review and evaluate the operation of this Exhibit and make mutually satisfactory adjustments to its provisions.

Employees covered by this Exhibit classified as hourly employees on 30 September 1994 and 3 March 1995, who do not have SHP Conversion factors, will be guaranteed their weekly attendance hours times their hourly rate of pay as the minimum weekly pay when initially assigned to a CIPP application. JOHN DEERE ABSENTEEISM POLICY

Section 1. Statement of Purpose

During Collective Bargaining, unplanned absenteeism was discussed. Unplanned absenteeism has a significant, negative impact on employee safety and morale, the quality of our products, and overall productivity.

This process must be administered in a manner that is fair, consistent and commensurate with a progressive and corrective discipline concept. This Exhibit provides a defined approach to address abuse that is in the best interest of both the Company and its employees. In pursuit of that interest, the John Deere Absenteeism Policy is laid out below. This Exhibit will be monitored regularly and will be altered as required upon mutual agreement by both parties.

Section 2. Employee Responsibility

It is the responsibility of all employees to report to work every day, on time, and as scheduled, per the rules and guidelines articulated in this Agreement and supporting memoranda.

Section 3. Measurement Period

An eighteen (18)-month measurement period will be used to evaluate absences per this Exhibit, which will commence upon the individual employee's first chargeable absence, as defined in Section 4 of this Exhibit. After eighteen (18) months from the date of the first chargeable absence, the measurement period will begin anew for successive measurement periods for the duration of employment.

The eighteen (18)-month measurement period will be extended in the event that an employee is absent due to Weekly Indemnity, a leave of absence, or is off work due to a disciplinary suspension for absenteeism in accordance with this Exhibit. The length of the extension will equal the amount of time the employee is absent for the above-referenced qualifying reasons.

Section 4. Chargeable Absences

Chargeable absences will include:

- (1) Unauthorized Absence
- (2) Tardy in excess of one (1) hour
- (3) Doctor/Dentist with or without documentation
- (4) Personal Vacation Day Unexcused
- (5) Single Vacation Day Unexcused

Any absence(s) not specified in the list above, including any company-approved absences, will be considered non-chargeable.

Each chargeable absence within the measurement period will accumulate towards progressive levels of discipline in accordance with Section 5 of this Exhibit.

In the event of extraordinary circumstances that force an employee to be absent, the parties agree to discuss all courses of action available to address each situation.

In the event of an absence lasting three (3) days or longer, employees must continue to provide a satisfactory reason for the absence to avoid loss of seniority, per Article XIV, Section 13-A-(1); however, these absences will be considered chargeable, provided the absences meet the criteria established in this Exhibit, up to a maximum of two (2) absences.

Section 5. Chargeable Absences

Chargeable Absence	Progressive Discipline
1st Absence	No Discipline
2nd Absence	No Discipline
3rd Absence	No Discipline
4th Absence	No Discipline
5th Absence	Written Reprimand
6th Absence	Three (3)-Day Suspension
7th Absence	Ten (10)-Day Suspension
8th Absence	Thirty (30)-Day Suspension
9th Absence	Thirty (30)-Day Suspension + Last Chance Notification
10th Absence	Termination

Section 6. Sick Days

Over the course of negotiations, concerns were raised that, from time to time, illnesses, emergencies, and other issues may arise with very little notice. The Company agreed that employees would have the ability to utilize sick days in these situations, in accordance with Article VII, Section 3.

In addition to the concerns above, it was also noted that a significant risk associated with short-notice scheduling of sick days was that certain days or times during a contract year have the potential to yield higher levels of absenteeism (i.e., Super Bowl Monday, Deer Season-Opening Week, etc.). The collective impact of high levels of absenteeism could have a significantly negative impact on production and other operations. The parties recognize the benefit of identifying these negative impact days up-front, and commit to identifying specific negative impact days where sick days may not be utilized.

During the course of our negotiations for the current Labor Agreement, the Company agreed to establish policies related to overtime in the factories. The intent of this letter is to state the policy of the Company for employees who are asked to work on (1) daily overtime; (2) Saturday and first off-duty day overtime; and (3) Sundays, holidays, and second off-duty days. It is our intent where questions arise out of situations involving these categories that the Manager of Labor Relations, upon a request from the Chairperson of the Shop Committee, will make themselves available to review the situation.

1. Daily Overtime:

- A. Except as provided in B below, an employee will not be required to work daily overtime unless they have been given twenty-four (24) hours' prior notice of the overtime assignment.

LETTERS

Mr. Chuck Browning

Page 2

- B. In a situation created by the absence of an employee on the succeeding shift, an employee may be required to work one (1) hour of daily overtime without prior notification. Overtime occasioned by such absence will not be considered as overtime except for pay purposes.
 - C. Mandatory daily overtime will not exceed four (4) hours.
2. Saturday and First Off-Duty Day Overtime:
- A. When Saturday and first off-duty day overtime is considered necessary, the employees required to work will be given notice on the calendar Wednesday preceding the Saturday and first off-duty day overtime.
 - B. No employee will be required to work overtime for more than three (3) consecutive Saturdays and first off-duty days.
 - C. For no more than six (6) occasions during a contract year, an employee required to work overtime under this paragraph will be excused from a Saturday or first off-duty day overtime assignment provided they notify the Company two (2) working days prior to the overtime day.
 - D. Should the number of employees requiring time off under this provision on a given Saturday or off-duty day seriously interfere with production or maintenance requirements, the Company will review with the Union the degree of interference in order to obtain immediate resolution of the problem. Nothing herein is intended to permit or condone concerted activity by employees, and the Company is not hereby precluded from limiting the number of employees taking time off and from taking appropriate disciplinary action for any such activity.

3. Saturday Preceding or Following a Holiday:

The Company will not require an employee to work on a Saturday which immediately follows a Friday holiday or precedes a Monday holiday with the exception of employees who work in the Power House, Maintenance, Receiving, or Repair Parts Shipping work areas, or in the A-7, Holding Furnace Attendant job classification.

4. Sundays, Holidays, and Second Off-Duty Days:

The Company will not require employees to work Sundays, holidays, or second off-duty days as defined in Article XVII, Section 1, unless they are part of the employee's regularly scheduled workweek.

During the course of negotiations, the parties discussed the subject of conversion to the metric system and its effect on certain employee-owned tools. The Company indicated that it intended to make available during the transition period necessary metric tools and calibrated measuring instruments to employees when required in the performance of their work. Such tools will be available in the tool cribs and checked out to employees when they have need for them.

At the point in time when the Company requires employees to provide their own metric tools, the Company and Union will meet to discuss the subject.

(MUTUAL ACCEPTANCE)

1 October 2021

Mr. Chuck Browning
Vice President and Director
UAW Agricultural Implement Department
International Union, UAW
8000 East Jefferson Avenue
Detroit, MI 48214

During negotiations, the parties had occasion to revisit the matters addressed in the Letter on MUTUAL ACCEPTANCE which has been a part of UAW-Deere collective bargaining agreements since the mid-1970's.

In the course of those discussions, the parties were reminded of the Letter's original foundation and purpose. Among the results of that exercise, was the resolution by the parties that their position on these matters should be restated in order to reaffirm certain principles and to clarify others.

Mutual Respect

It is acknowledged that contacts between the Company and the Union are based on a relationship of respect, understanding and cooperation. Such respect, understanding and cooperation at the Corporate-International Union level contemplates a continuation of contacts between the parties on items of mutual interest as they arise. Such items include, but are not limited to, any relocation, purchase, and the building of facilities. In all facilities the Company will, as it has in the past in regard to Union relations, conduct itself in its relationships with hourly paid employees who perform traditional production.

Neutrality

The Company will maintain a neutral position with respect to both the UAW, and Union representation generally, during any organizing campaign conducted by the UAW and directed toward an appropriate unit of unorganized production and maintenance employees at any majority-owned manufacturing or warehousing facilities which are included in the Company's domestic agricultural and/or industrial equipment operations. By a neutral position, the parties mean that they will not directly or indirectly attack or communicate anything of a negative or derogatory nature about the other party or about labor unions or employers generally.

LETTERS

Procedure for Resolving Representation Questions

If the Union contends that a majority of the employees in one of the units described above wish to be represented by the Union, the Company agrees that it will resolve all questions associated with such contention in accordance with one of the following procedures.

First, the Company may agree to resolve such issue by means of a mutually acceptable procedure for confirming the Union contention of majority support which will be conducted by a mutually agreeable third party.

Second, if the Company does not agree to resolve the issue as described above, it agrees that any such issue (including but not limited to issues involving voter eligibility and scope of the appropriate bargaining unit) will be resolved by means of an expedited submission to a mutually agreeable third party who will determine the question of representation by means of a secret ballot election conducted on an expedited basis after the Union produces a 30 percent or more showing of interest. With respect to any issue properly submitted to the third party in accordance with this Letter, the determination by such third party shall be final and binding on the Company and the Union. The Company and Union agree that the third party shall apply NLRB law, the third party will not retain jurisdiction after deciding the question of representation, and the third party shall have no power to alter, change, detract from or add to the provisions of this Letter.

- (16) Oil Mist/Total Particulate Surveys conducted by the Company Industrial Health and Safety staff will be made available to the joint Safety Committee. The Company will institute feasible engineering controls to reduce machining fluid exposures.
- B. The Company will provide employees who come in contact with hazardous materials with training on the safe use of such materials. Such training will be reviewed with the Local Union Safety Representative. The Company agrees to provide employees exposed to hazardous materials with the Safety Data Sheets for those materials during the shift that the request was made, provided sufficient time is available.
- C. The Company is committed to purchase only those hazardous materials that have adequate Safety Data Sheets and labels. Also, the Company will request that suppliers of hazardous materials provide it with identifiable chemical names and composition of such products on their Safety Data Sheets as required by the regulations. When reviewing Safety Data Sheets on new or different products, the Company will confirm supplier provided health warnings through toxicology references. The Company is committed to the proper labeling, as required by the standard, of all transfer containers used to carry hazardous materials and will make an ongoing effort to accomplish this goal. Further, the Company will make an ongoing, good faith effort to maintain consistent enforcement of this program. This program will be monitored by both factory personnel and Deere & Company in order to assure that each facility has an effective hazardous material program. The Union Safety Representative will be invited to attend the facility's Hazardous Material Review Committee Meetings. The Company is committed to continuously reduce both the number of and quantity of hazardous materials used at each facility.

- D. Provide for prompt notification to the Local Union Safety Representative and the International Union Central Safety Committee of fatalities and accidents involving loss of limb. Access to the factory will be provided to the Local Union Safety Representative and the International Union Central Safety Committee in order to conduct an investigation. A representative designated by the Company will be present during this investigation.
- E. The Union Safety Representative may accompany governmental health and safety inspectors and International Union health and safety professionals on factory inspections.
- F. The Company strives to achieve a "No Hands in the Die" policy. However, some "draw jobs" currently run on mechanical or hydraulic presses, require employees to place their hands and arms in the die hazard area for part loading and unloading. In these situations, the following additional safeguards will be provided:
- (1) The presses will be equipped with a set of two-hand control buttons for each operator/helper. All buttons must be activated simultaneously to cycle the press.
 - (2) The press operator(s)/helper(s) must hold the two-hand control buttons down during the full press cycle.
 - (3) The presses will be equipped with mechanical safety blocks or ram/slide locks that will prevent the press ram from accidentally falling while the employees are reaching into the die hazard area.
- G. Review the confined space/entry program. When work assignments require employees to enter confined spaces, appropriate precautions will be taken in accordance with safe work practices such as:

air sampling, ventilation when necessary, communications systems, personal surveillance arrangements, and adequate support personnel, as required.

- H. The International Union, Local Unions, Union and Joint Safety Committees and Union members of such Safety Committees, and Union officials, employees and agents shall not be liable for any work-connected injuries, disabilities, diseases, deaths or loss resulting there from which may be incurred by employees of the Company or its subsidiaries or by third parties while on Company property. This is not intended to, and does not, increase the Company's liability in such cases beyond its normal exposure, if any (i.e., Workers Compensation).

The Company shall have the responsibility to continue to make reasonable provisions for the safety and health of its employees during the hours of their employment. The Union shall cooperate with the Company's efforts to carry out its obligations.

- I. The unit Union Safety Representative will be included in the annual joint safety audit at their respective unit. To further enhance the effectiveness of these audits, two (2) unit Union Safety Representatives and one (1) International UAW Representative will be invited by the unit to observe the audit.

The Company reaffirms its commitment to continue and improve these policies, procedures, and practices as they relate to health, safety, and ergonomics. Any questions which might arise may be reviewed by the Central Safety Committee.

During negotiations, the parties discussed the question of "superseniority" or "preferential seniority" for Union officers in the light of recent NLRB decisions which make such coverage improper for certain Union positions.

It is the intent of the parties to abide by the NLRB rulings. Therefore, the parties agree to administer the Agreement so as to provide "superseniority" or "preferential seniority" coverage only for a Union member who is involved in either grievance handling or the administration or negotiation of bargaining agreements on the plant level.

However, should the NLRB rulings be overturned or modified on appeal, it is the understanding of the parties that, to the extent permitted by such appeal decision, "superseniority" or "preferential seniority" coverage will revert to the provisions previously contained in the Agreement.

During negotiations, the Union raised numerous concerns over the Company's sourcing actions and their impact on past and future employment opportunities.

The Company shares the Union's interest in optimizing employment opportunities and growing the business. It is recognized, however, that decisions resulting in insourcing or outsourcing will need to be continued for the efficient operations and survival of our business and the long-term job security of our employees.

Recognizing the sensitivity and level of concern over this issue, the Company agrees to the following procedures to ensure Union input into the Company's sourcing decisions. Discussions will take place as provided below:

LETTERS

Mr. Chuck Browning

Page 2

1. The Company will provide written notification to the Local Union of contemplated sourcing actions at least one hundred and twenty (120) days in advance, or longer when possible, including the reason for such contemplated action. This notice period will be used to share information and have mutual discussions as required. Prior to implementing a final sourcing decision, the Company and Union will consider such factors as the available market (whether internal or external) for the work in question, the total cost involved, quality, the availability of the requisite technology, capital, the ability to comply with statutory requirements, timeliness of implementation, possession and availability of Company equipment, as well as the impact of such a decision on both the long term job stability of Deere employees and the effect on future job opportunities.
2. Within ten (10) days of notification, a meeting will be held between local Company and Union representatives to review and discuss sourcing actions being contemplated by the Company. During this meeting, the Company will provide full information and discuss in detail:
 - a. its reason(s) for the contemplated sourcing action,
 - b. data used to support the contemplated sourcing action, and
 - c. any alternatives to the contemplated sourcing action.

LETTERS

Mr. Chuck Browning

Page 3

3. Within thirty (30) days of the meeting in paragraph (2) above, the Local Union may present a written proposal to either keep existing work in-house or to in-source previously outsourced work and/or bring in new work to offset any job loss associated with the contemplated sourcing action. For this purpose, new work means any work unlike or dissimilar to work currently performed by any Deere-UAW bargaining unit. Such proposal will take into account the criteria stated in paragraph (1) above. Such proposal may also include Union input into product and/or work process and other changes that may impact the cost and quality of the work sufficiently to keep the work in-house.
4. In all cases, the Company will have the final responsibility for making the sourcing decision and will communicate such decision promptly to the Union.
5. In cases where the Local Union claims that sourcing actions are not being made consistent with the provisions of this letter, these situations may be referred to Step 3 of the Grievance Procedure.
6. It is understood that the Company's open discussion with the Union of sourcing and related plans may require the Union to keep information confidential until the Company consents to its release. The Company, on its part, also agrees not to release to outsiders any information or proposals developed as a result of discussions with the Union, nor to use the results of such discussions to obtain more attractive contract terms from outsiders in lieu of keeping the work in-house.
7. For the purpose of this Letter of Agreement, sourcing means everything but low volume/low value-added repair parts.

Mr. Chuck Browning

International Union, UAW
8000 East Jefferson Avenue
Detroit, MI 48214

Over the years, Deere & Company and the UAW have made a sincere effort to resolve issues through the negotiation process and the grievance procedure. In those instances where, unfortunately, strikes have occurred, Deere & Company has, in the interest of our long-term relationship, elected to refrain from continuing production operations by hiring new employees as permanent replacements for striking workers. During those few instances in which a strike has occurred, the UAW recognizes that Deere must continue to protect equipment, facilities and, most importantly, fulfill its commitments to customers by using salary employees as are available to continue critically necessary operations in an orderly manner.

This course of action by the Company has served the parties well. It has permitted us to address the issues without additional pressure and escalation of the tensions of the situations. Accordingly, it is Deere & Company's intent to continue this policy at this time.

During negotiations, the parties addressed themselves to the issue of certain problems involving employee complaints of unfair representation in the handling of grievances; consequently, the Company and the Union agree as follows:

1. Should an employee file a complaint with the UAW under Article XXXIII of the UAW Constitution alleging unfair representation in the handling of their grievance, then the International Union will as soon thereafter as possible, provide relevant information of such filing to the Director of Labor Relations of Deere & Company.
2. Should a final determination be made under the procedures of the appeal process of Article XXXIII of the UAW Constitution that the complaint is meritorious, then the International Union will notify the Director of Labor Relations of such fact, and the parties will proceed to establish the procedure for the reinstatement of the grievance to the grievance procedure including possible arbitration.

During the course of negotiations, the parties discussed methods of improving the arbitration scheduling procedure. On the basis of these discussions, the parties agreed that:

1. Grievances from the Deere-UAW Master Depot Agreement will be arbitrated two (2) days per month, except July, on special dates obtained from the Deere-UAW Permanent Arbitrator. The Secretary of the Deere-UAW Joint Appeal Board will contact the Permanent Arbitrator to obtain arbitration dates mutually satisfactory to the Company, Union, and Permanent Arbitrator.

Grievances would be scheduled on the basis of their order referred to the Secretary of the Deere-UAW Joint Appeal Board. In the event two (2) grievances are received at the same time, the lowest Local number will be given preference.

Continuing liability grievances, i.e., grievances involving discharge, three-day quits, layoff or recall questions, will be

The objectives of such program(s) will be to improve the job placement and job retention rights of employees relative to their seniority; and to continue toward the goal of retaining senior employees at work.

Such program(s) will be timely, educationally sound, cost effective and must support the unit's strategic business plans and focus on improved performance.

1. Review and evaluate the various training programs.
2. Ensure training to be a continuous process.

The National Joint Committee on Competitiveness is responsible for ensuring full implementation of the intent of the Continuous Improvement Process and the CI cornerstones, as provided in Article XVIII and the UAW/Deere Continuous Improvement Process letter. The committee is empowered to provide direction to local Continuous Improvement Steering Committees to ensure success of the CI Process and conformity to the philosophy of sustained continuous improvement.

The National Joint Committee on Competitiveness will sponsor an annual meeting of the UAW and Deere CI Coordinators to discuss and approve changes which will increase the effectiveness of the CI Process.

CONTINUOUS IMPROVEMENT PAY PLAN

It is anticipated that through involvement at the corporate and International Union level, issues of concern regarding CIPP will be raised following the exhaustion of discussions and contractual remedies at the factory level. In the event that issues involving an output standard or a base performance metric that cannot be resolved through this involvement process, the Company may elect to implement the CIPP application. The issue(s) will be referred to this committee, and if this committee cannot resolve the issue(s), and does not utilize outside facilitation/arbitration, then the Union may refer the grievance to Special Step 3 of the Grievance Procedure. The Company-implemented CIPP application will remain in effect unless changed by the outcome of these proceedings.

(UAW/DEERE CONTINUOUS IMPROVEMENT PROCESS)

1 October 2021

Mr. Chuck Browning
Vice President and Director
UAW Agricultural Implement Department
International Union, UAW
8000 East Jefferson Avenue
Detroit, MI 48214

During the course of 2003 negotiations, both parties drew upon the knowledge gained from CIPP and agreed that a structured Continuous Improvement Process was necessary to support a culture that will allow the Company to remain competitive and provide premium wages to its employees.

To obtain maximum employee support, involvement, and engagement, a process called the UAW/Deere Continuous Improvement Process was implemented to create a structured work environment, which promotes Continuous Improvement.

Cornerstones of the CI Process

In order to ensure the success and longevity of the UAW/Deere CI Process, the parties commit to the following cornerstones:

Mr. Chuck Browning

Page 2

(1) Joint Leadership

The success of the CI Process is dependent upon the leadership and participation of both salaried and UAW represented employees. Joint leadership, UAW & Deere, is essential at all levels and provides the necessary alignment to ensure CI is successful in improving safety, customer satisfaction, and the quality of our products, workplace, and business.

(2) Organizational Structure

The Factory Joint CI Steering Committee (FJCISC) leads the CI organizational structure. The NJCC provides strategic direction to the FJISC. The JD GROW Team structure supports and drives CI and ensures every employee will have a voice in the CI process. Natural Work Groups (NWG) and functional resources are engaged in eliminating waste on a daily basis utilizing the CI Process.

(3) CI Activities and Events

NWGs and functional resources, with the support of their JD GROW teams, are responsible for identifying and executing CI activities and events for their areas. The progress of these activities as they relate to safety, quality, and efficiency will be monitored, communicated, and recognized accordingly.

(4) New Profitable Work

This cornerstone provides additional work through market share increases, new products, expanded product integration, non-traditional work assignments, and continuing education and training. New Profitable Work (NPW) will be shared regularly unit wide. This is the stimulus for further CI to occur.

CI Process Support Structure and Duties

The parties recognize the importance of developing and supporting a culture that will allow us to create and sustain a competitive manufacturing environment, which is safe and provides our customers with a high-quality product on time. Sustaining these achievements will provide employees enhanced job security and premium wages. To this end, it is recognized that an organizational structure must be in place to support these objectives.

The CI organizational structure includes the following groups along with their roles and responsibilities.

UAW Continuous Improvement Coordinator

The UAW CI Coordinator representing the Union in CI across all covered bargaining units will be on a leave of absence per Article VI, Section 2-C.

Unit UAW Continuous Improvement Coordinator

A FJCISC will select a Unit UAW Continuous Improvement Coordinator. As part of the selection process, the Union shall submit the names of five (5) employees. From this group the Company shall select three (3) whom it deems qualified for this work. The Union shall then select one (1) of these three (3) as the Unit UAW CI Coordinator. The appointment of the Unit UAW CI Coordinator will be submitted to the National Joint Committee on Competitiveness (NJCC) for approval. This person's primary function will be to monitor and coach the factory in their efforts to achieve their goals. The Unit UAW CI Coordinator will report to the FJCISC on the status of CI projects and the CI Process for the factory. Unit UAW CI Coordinators are not permitted to participate in traditional production or maintenance/skilled trades work. Overtime is only allowed for CI-related activities. The Unit UAW CI Coordinator may be removed by FJCISC with approval from the NJCC at any time.

Mr. Chuck Browning

Page 4

Factory Level CI (FLCI) Representative

The FJCISC may select a FLCI Representative(s) as necessary. The FLCI Representative(s) reports to the John Deere CI Coordinator. The FLCI Representative(s) shall be selected for up to a twenty-four (24) month term; however, the initial term may be extended for an additional twelve (12) months upon approval by the FJCISC. The FLCI Representative(s) may only be removed by the FJCISC and can be removed by the FJCISC at any time.

FLCI Representatives are full time assignments. Their primary focus should be actively helping teams identify CI opportunities and helping drive the completion and implementation of projects in the factory. The FLCI Representatives also participate in Focus Improvement Plan (FIP) activities, JDGROW Meetings, NWG Meetings, train NWGs and/or functional resources, lead or support event-based CI activities, and provide any other support to drive and promote continuous improvement in the factory.

FLCI Representative(s) are not permitted to participate in traditional production or maintenance/skilled trades work. Overtime is only allowed for CI-related activities.

CIPP Teams/Natural Work Groups

CIPP teams have the primary responsibility to continuously improve. Skilled Trades and other Non-CIPP teams should also endeavor to continuously improve.

Teams may consist of one or more NWGs. The NWGs are based on the natural division of manufacturing areas into processes or shifts. Each NWG may select a CI Representative. The NWGs are responsible for identifying

LETTERS

Mr. Chuck Browning

Page 5

opportunities for CI and assisting in the implementation of improvements in their work areas. CI Representatives may serve in this capacity for not more than one (1) year and will be paid in accordance with Article XI, Section 6-C while engaged in CI activities, but not less than maximum weekly pay level.

The CI Process, through the implementation of CI projects, helps the NWG continuously improve at a competitive rate.

Each team, with the assistance of their functional resources, is expected to develop goals focused upon safety, quality, and efficiency. Actions in support of these goals will be developed and progress will be monitored. Quarterly CI CIPP performance goals will be set to the average of the last two completed semesters or 125%, whichever is higher.

JD GROW Teams

The members of the JD GROW Team consist of manufacturing management, a Shop Committeeperson, each functional resource leader, and designated FLCI Representative(s).

The JD GROW Team reviews obstacles with each of their NWGs and functional resources, and monitors progress toward their CI Goals on a daily basis.

The JD GROW Team is also responsible for recognizing and communicating NWG successes as required.

LETTERS

Mr. Chuck Browning

Page 6

Factory Joint Continuous Improvement Steering Committee (FJCISC)

A FJCISC consists of the Shop Chairperson, Local Union President or Committeeperson, Manager of Labor Relations, and operations management. The FJCISC will meet a minimum of once per month. The FJCISC provides guidance and support to JD GROW and NWGs through training, communication and recognition. The FJCISC monitors progress toward improving factory-wide safety, quality, and efficiency performance. The FJCISC ensures that functional resources adequately support improvements that impact performance goals. The FJCISC is responsible for assuring the intent of the CI process cornerstones are fully implemented and maintained factory-wide in accordance with the CI process standard as set forth by the NJCC. The FJCISC does not deal with pay issues.

NEW PRODUCT INTRODUCTION)**

1 October 2021

Mr. Chuck Browning
Vice President and Director
UAW Agricultural Implement Department

1. Planned Activities

In general, the time employees spend on pre-determined, planned activities (excluding those identified in Article XVIII, Sec 6-A-(6)) that are of significantly greater magnitude than those incurred or allowed for in the plan's Base productivity ratio, should be considered as non-plan hours and paid at the following appropriate Contractual rate.

- A. *If the plan is in operation the time should be paid in accordance with Article XVIII, section 7, paragraph B. (Exhibit N applies to Employees hired before 1 October 1997)*

LETTERS

Mr. Chuck Browning

Page 2

- B. If the plan is not in operation, employees should be paid the non-CIPP rate of the assignment or the rate of their regular assignment, whichever is higher. If, however, the employee is hired after 1 October 1997 and is Pay Level 7, the employee should be paid the wage rate of their regular assignment or the wage rate of the temporary assignment, whichever is higher, for this non-plan time.*

If, however, it would be beneficial to have the employees minimize the duration and impact of the activity, a pre-determined number of output hours may be added ("seeded") to the plans' reported output hours and the time considered as plan input hours. The "seeded" hours will be calculated to provide 120% plan performance for new plans (no year-to-date plan performance history available). Current plans will be "seeded" to year-to-date performance, but in no case will such seeding be less than 120%.

Example A

An activity is scheduled that is anticipated to reduce weekly output to 80 units. The team will return to normal operations at the conclusion of the event.

Normal Week Data

Weekly Schedule	= 100 units
Output Standard	= 400 Hrs / 100 pcs.
Normal Input hours	= 440 hours
Current Base productivity metric	= 0.800
Year to Date Plan Performance	= 130.97%

Step 1. Determine input hours affected by activity

$$\begin{aligned}80 \text{ units} \times 400 \text{ Hrs.} / 100 &= 320 \text{ Output Hours} \\ (((((320 \text{ Output Hrs.} / \text{Input Hrs.}) - .800) / .800) \times 0.67) + 1) \times 120\% &= 130.97\% \\ \text{Solve for Input Hours} &= 351.99 \text{ hours} \\ \text{Input Hours of lost production} &= (440 - 351.99) = 88.01\end{aligned}$$

LETTERS

Mr. Chuck Browning

Page 3

Step 2. Determine output hours to "seed"
at Base for Input Hours of lost Output

$$\frac{(((\text{Output Hrs.}/88.01 \text{ Input Hrs.}) - .800)/.800) \times 0.67 + 1}{1} \times 120\% = 130.97\%$$

Solve for Output Hours = 80.00 "seed" hours

Disrupted Week Output Hours = 320.00 (80 units x 400 Hrs. / 100 units)
+ 80.00 "seed" hours
= 400.00 Output Hours

Resultant Weekly Results = 400.00 / 440 = .909 productivity ratio
Weekly Plan Performance = 130.97%

2. Major New Product/Process Introduction

During the production start-up, employees will be producing product at a reduced rate while learning their jobs, trying out tooling, etc. To encourage employees to achieve the specific production requirements during the start-up, employees' time will be considered as plan Input Hours and Output Hours will be "seeded" to the plan to provide plan participants with the opportunity to achieve and exceed the Weekly Pay Level of 120%. The maximum input hours allowed to produce a given schedule during this start-up period must be determined ahead of time. Since Input Hours may vary during start-up weeks, "seed" hours will be calculated after actual Input Hours worked during the week are determined. If actual Input Hours exceed the pre-determined maximum Input Hours, "seed" hours will be based on the pre-determined maximum Input Hours. The "seeded" hours will be calculated to provide 120% plan performance for new plans (no year-to-date plan performance history available). Current plans will be "seeded" to year-to-date performance, but in no case will such seeding be less than 120%. No output "seed" hours will be allowed for units produced in excess of the scheduled production.

New Product/Process Start-up Examples

A new model is being introduced in an assembly operation. Management has planned for a reduced schedule during the first week of this introduction. They have provided, however, enough materials to exceed the planned schedule if employees demonstrate the ability to learn the new work and straighten out tooling and other problems ahead of schedule.

Given conditions:

Current Base = .893

New model output standard = 5000 Hours/100pcs

"Full" production = 5 units/day = 25 units/week

Start-up period = 5 days

Start-up production schedule = 10 units/week

Pre-determined maximum Input Hours = 1400 hours

Example 1

Units produced = 10

Input Hours = 1400

Year to Date Plan Performance = 128.95%

Expected Output Hours = (5000 Hours/100 x 10) = 500

$$\left(\frac{\text{Output Hrs.}}{\text{Input Hrs.}} - .893\right) / .893 \times 0.67 + 1 \times 120\% = 128.95\%$$

Solve for Output Hours = 1389.42

Required "seed" hours = 1389.42 - 500 = 889.42 "seed" hours

Allowed "seed" hours/unit produced = 889.42 / 10 = 88.94

Total Output Hours = (5000 Hrs. / 100 x 10) + (88.94 x 10) = 1389.40

Weekly Results = 1389.40 / 1400 = 0.992

UAW Agricultural Implement Department
International Union, UAW

During Collective Bargaining Negotiations, the Union raised concerns about the Company's administration of certain provisions of ARTICLE II. GENERAL CONDITIONS of the Labor Agreement. There were issues concerning the Company's administration of the Non-Traditional Assignments provisions relating to the volume of the assignments, the propriety of characterizing certain assignments as non-traditional (when they were actually bargaining unit work), and the Company's selection process for filling assignments. The Company's failure to provide notice as provided in the Subcontracting/Sourcing provisions was raised. Concerns were also raised about overtime scheduling and the canceling of Saturday overtime, as well as resource pool management, temporary assignments, and sourcing. Subcontracting obligation concerns were raised specific to daily and Saturday overtime scheduling.

Concerns were also raised about employees being excused for situations that occur outside of the Bereavement provisions in the Agreement. The Company will make every effort to

LETTERS

Mr. Chuck Browning

accommodate employee requests for situations that fall outside the Bereavement provisions with Personal Vacation Days (PVDs) or excused time off.

Issues surrounding paper earnings statements were also raised. The Company will continue to mail statements to employees on Long-Term Disability and Indefinite Layoff, as they lack access to electronic earnings statements. The Company will discuss arrangements to provide employees with paper earnings statements when exigent circumstances exist that make accessing electronic statements difficult.

A number of issues were also raised about issues specific to certain locations.

After discussion, the Company acknowledged that breakdowns in some of the labor relations processes in these areas may have occurred. To address that situation, the Company committed to further investigate the matters raised and to implement any necessary process or administration changes in order to remedy the situation.

The Company further commits that, if a pattern or practice of breakdowns in any of these processes should arise again during the term of this Agreement, the Local Union may bring the issues to the attention of the International Union. Then, upon notice from the International Union that a problem does exist, the Company will arrange a joint visit by representatives of the International Union and the Vice President of Labor Relations to correct the problem without delay. After agreeing to a date to visit the unit, the parties will issue a report of their findings to the Director of the UAW Agricultural Implement Department and the Vice President of Labor Relations at Deere & Company within ten (10) working days of the visit.

This training should include, but not limited to, CIPP administration, CIPP base development, and instruction on how to respond to CIPP plans when performance deteriorates. During the course of negotiations, the parties discussed the potential effects of new technologies, processes, and changes in manufacturing within the Units that may at times require adaptation of how some CIPP Plans operate.

In order to remain competitive and respond to changes that affect the CIPP plans' opportunity to achieve premium earnings and ability to continue to deliver measurable business improvement, the parties have agreed to be open to explore opportunities that will reinforce the principles of CIPP and gainsharing to the end of mutually beneficial results for employees and the business.

In specific instances, enhancements to the current gainsharing model may be explored in the form of localized, departmental "pilots." Unit "pilot" programs will be jointly agreed upon by the Company and Local Union Leadership. Prior to starting an agreed upon "pilot", Corporate Labor Relations and the International Union will be made aware of the plan.

duration, and exit strategy, if deemed unsuccessful. It is understood that either party may withdraw from or seek modifications to the “pilot”.

The parties agree that should any enhancements be explored they will be “complimentary” to the current system, rather than a new, stand-alone alternative in order to avoid development of a “competing” gainsharing system.

(HIGH SCHOOL APPRENTICES AND
BARGAINING UNIT WORK)

1 October 2021

Mr. Chuck Browning
UAW Vice President and Director
International Union, UAW
8000 East Jefferson Drive
Detroit, MI 48214

During negotiations, the parties discussed the issue of increased vacation scheduling due to changes in the vacation shutdown language of the Agreement. As an intermediary measure to address increased absenteeism risks associated with this, the parties agree that students engaged in a high school registered apprenticeship program will be eligible up to one (1) year post-graduation from high school to participate in bargaining unit work as temporary replacements for employees absent from work due to vacation. This will have the mutual benefit of developing a pipeline of talent for our operations.

In utilization of high school apprentices, the following will apply to define the execution of this program:

1. High school apprentices may only be used to cover employees out on vacation or single vacation days and the associated time to train with the employee whom they will be covering.

Mr. Chuck Browning

2. Such high school apprentices will not be subject to the seniority provisions in the Agreement and therefore, remain on the shift and in the assignment of the absent employee until they return. For overtime purposes, the high school apprentice will be treated as if they are the most-junior employee in the department.
3. The rate-of-pay for these high school apprentices will be the lowest rate in the Exhibit "A" progression level for the work being performed. If participating in a CIPP application, hours worked by the high school apprentice will be included in the plan.
4. High school apprentices will not be utilized to replace employees on temporary inventory adjustment layoff.

Mr. Chuck Browning
Vice President and Director
UAW Agricultural Implement Department
International Union, UAW
8000 East Jefferson Avenue

During the course of Collective Bargaining Negotiations, the parties discussed methods for improving execution of the grievance procedure. On the basis of these discussions, the parties agreed that:

1. The Company will endeavor to provide annual dispute resolution training to Production Supervisors, unit Labor Relations, Union Stewards, and members of Local Union Shop Committees. Part of this training will include guidance on conducting grievance investigations and drafting joint fact sheets.

3. Each Local Union Shop Chairperson and Labor Relations Manager will meet at least once per month to discuss grievances that have already been discussed at Step 3 but remain open.

LETTERS

Page 2

4. The parties discussed their respective concerns when units experience an increase in unresolved grievances. To address such situations, the parties agree to conduct joint investigations during the terms of this Agreement. The joint investigation will include two (2) representatives from the International Union and two (2) representatives from Deere & Company Labor Relations.

Requests for investigations will be initiated by a Local Union raising any concern to the International Union. Then, upon notice from the International Union that a problem does exist, the Company will arrange a joint visit at the unit to correct the problem without delay. Additionally, the Company can initiate a request for an investigation and notify the International Union via the Secretary of the Joint Appeal Board.

The Joint Investigation Team will have the authority to review and resolve all grievances in accordance with the provisions in Article XII of this Agreement. The Joint Investigation Team will draft a report of their findings within thirty (30) days of their first day of investigation into the issues. Additionally, Reports of Joint Investigations will be provided to the Vice President of Labor Relations at Deere & Company and the Vice President of the International Agricultural Implement Department.

(DIVERSITY, EQUITY, AND INCLUSION)

1 October 2021

Mr. Chuck Browning
Vice President and Director
UAW Agricultural Implement Department
International Union, UAW
8000 East Jefferson Avenue
Detroit, MI 48214

During the course of negotiations, the parties discussed the mutual benefits of a diverse and inclusive environment within the Units. To this end, the parties will continue to work together to foster those initiatives currently in the Labor Agreement and give special consideration to the following.

Equal Opportunity Program:

The parties recognized a need to revitalize the Central Committee outlined in Exhibit "H," Article III, Section 3. The Central Committee will facilitate an annual meeting comprised of one member of each Local Shop Committee and in addition one (1) Company and one (1) Union delegate from each Factory EEO Committee. This meeting will be to review general areas of concern, EEO-related legal updates, if any, and importantly, to help develop training, or other communications, in the areas of diversity, equity, and inclusion. Furthermore, the Central Committee will ensure consistency across the Factory EEO Committees.

LETTERS

Mr. Chuck Browning

Training by third parties on areas of diversity, equity, and inclusion for the Factory EEO Committee and/or for employees was also discussed. When a need arises, these requests will be made from the Local Chairperson to the Factory LR Manager for review with the Central Committee to determine possible next steps.

Recruitment and Apprenticeships:

The parties discussed ways to increase diversity in the trades and hiring, in general. Both agreed that identifying women and other underrepresented populations to participate in hiring fairs and other educational activities such as iJAG and interactions with local high schools was important. The Company and Union will work together to attempt to identify employees to participate, when feasible.

Secondly, the parties recognized a perceived lack of diversity in apprenticeship applicants. Upon request by an employee, the Company and Union will help identify post-secondary programs to aid with the apprenticeship entrance examination.

1 October 2021

Mr. Chuck Browning
Vice President and Director
UAW Agricultural Implement Department
International Union, UAW
8000 East Jefferson Avenue
Detroit, MI 48214

During negotiations, the parties discussed parts supply challenges caused by the world-wide supply chain disruption as a result of the COVID-19 pandemic and the potential effects on CIPP team performance.

To address these concerns, from the start of this Agreement until 01 January 2023, the following should occur:

1. When major parts disruptions occur, the impact of these disruptions will be reviewed relative to weekly CIPP team performance.
2. When documented parts delay issues exceed what can be reasonably expected as already residing in a CIPP team's base metric, the CIPP team will be compensated with some number of seeded output hours to account for the excess delay. In no case shall seeded output improve the weekly CIPP performance higher than "52-Week CIPP Plan Performance to Date".
